Legal Items

Right of Way - Route U.S. 9

93 There is presented again the matter of acquisition of property on Route 9, Section 4, Parcel R29B2, owned by the Madison State Bank.

The State registered the fair market value of the premises at $30,800. The owner testified as to a total value of the taking and damages of $64,462. The commissioners awarded $42,000. This award encompasses both the value of the taking and the damages to the remainder and the cost of relocating a bank trailer presently on the premises in question.

Although the commission award is $11,200 over the State's fair market value, it should be remembered that a large portion of this award can be ascribed to relocating the trailer. This cost is not considered by the State's appraiser but is compensable as relocation benefits. Negotiations are presently being conducted in an effort to reach a settlement on the basis of the commissioners' award.

It is recommended that a notice of appeal be filed as a protective measure pending the outcome of these negotiations. (February 22, 1971)

Right of Way - Route 13

94 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 13, Section 1, Parcel 18 owned by Angelo M. Sant'Ambrogio; et al.

At the hearing before the commissioners held on January 14, 1971, the State presented testimony in the sum of $2,600. The property owner testified that he anticipated building a home on the subject premises and that he would now have to replace it at a cost of approximately $8,500. Complaint was filed on December 3, 1969 and deposit was made into Court in the sum of $2,600. Fair Market Value was registered in the sum of $2,600. Commissioners returned an award in the amount of $3,000.

The State was represented by Fee Attorney Julius Cohn.

It is, therefore, recommended that the award of the commissioners in the amount of $3,000, be approved.

No appeal is recommended since the Commissioners' award is fair and reasonable and the payment of the award is recommended as in the public interest. (February 16, 1971)

Right of Way - Route 15 Freeway

95 There is presented the matter of the condemnation of the premises of John Van Wettering; et al on Route 15 Freeway, Section 8, Parcel E34, located in the Township of Jefferson.

The condemnation Complaint was filed for the acquisition of a drainage easement. At the time the taking was originally proposed, department maps show the ownership to be unknown. It has since developed that the premises are owned by John Van Wettering et al and that the proposed taking would render the septic system inadequate, if not totally destroyed. The result would be to render the house constructed on the premises uninhabitable.

The owner challenged the State's proposed acquisition. It has been ascertained that the drainage can be relocated some distance to the west at an approximate additional construction cost of $2,000.

In view of the possible damage which would have to be paid in condemnation in this action, it is recommended that the condemnation be discontinued and that the drainage be located at such point to the west of the Van Wettering premises as may be determined feasible by Engineering and Design. (February 22, 1971)

Right of Way - Route 15 Freeway

96 There is presented here the matter of a commission award entered against the State in the condemnation of property on Route 15 Fwy., Section 8, Parcel 56, owned by an unknown owner, his or their heirs, devisees and personal representatives, and his, their or any of their successors in right, title and interest; et al.

At the hearing the expert for the State testified to a value of $350. No one was present on behalf of the owner. A Report of Commissioners dated February 8, 1971 is in the amount of $351.

It is recommended that the award in the amount of $351. be accepted. (February 22, 1971)

97 Right of Way - Route 17

There is presented herewith the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 17, Section 4, Parcels R36A & 2R36B, owned by Bergen Auto Company.

At the hearing before commissioners, the owner's witness presented testimony in the amount of $197,108 for the taking and damage. The State presented testimony in the amount of $92,000 being the amount of the re-registered fair market value. The commissioners' award was in the amount of $110,000. The amount of $64,550 was deposited into court on September 14, 1970. A protective appeal is being filed.

It is recommended that the protective appeal be approved and that some study be made of automobile sales rooms. It is further recommended, in view of the fact that the award is not substantially out of line with the fair market value, that serious consideration be given to efforts to settle the case. (February 22, 1971)

98 Right of Way - Route 17

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 17, Section 4, Parcels 166A, 166B, 166C, E166D and E166E owned by Erie-Lackawanna Railway Company; et als.

At the hearing before the commissioners held on November 17, 1970, the State presented testimony in the amount of $21,800. The property owners offered testimony in the amount of $30,750. Complaint was filed on June 16, 1969 and deposit was made into Court in the sum of $16,500 on September 15, 1969. Fair Market Value was registered in the sum of $21,800. Commissioners returned an award in the amount of $25,130.

The State was represented by Fee Attorney Donald C. Ohnegian.

It is, therefore, recommended that the appeal taken from the award of the commissioners in the amount of $25,130, be approved. (February 16, 1971)

99 Right of Way - Route 18 F

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 18F, Section 8, Parcel R57A, owned by McWhorter Realty Co., a New Jersey corporation.

The complaint was filed May 5, 1970 and no deposit was made into court.

The defendant was represented by counsel at the hearing and offered testimony to prove a fair market value of $21,500 for the taking and damage to the remainder. The State by its witness, a Senior Right of Way Negotiator proved a fair market value of $13,150.

The commissioners by their report made an award in the sum of $16,000. It is recommended that the award of the commissioners be accepted and paid together with lawful interest. (February 22, 1971)

Right of Way - Route 23

100 There is presented here the matter of a commission award entered against the State in the condemnation of property on Route 23, Section 5, Parcel E 65, owned by Mary Elizabeth Collins; et al.

The Complaint was filed on August 18, 1967. A deposit of $300 was made into court. The fair market value was registered in the amount of $300.

At the hearing the owner's were not represented and did not have an expert, but stated that there was certain damages to their remainder that they have not been corrected by the State. The State's expert testified to the amount of $300 for the value of the partial taking. The Report of Commissioners dated February 8, 1971 is in the amount of $750.

It is recommended that the award of the commissioners be accepted and that no protective appeal be filed in this matter since it is obvious that the commissioners included these damages to the remainder. Also, these damages would be highlighted at a trial and the cost and expense of a trial would not warrant an appeal for this small sum of money. (February 22, 1971)

Right of Way - Route 35

101 There is presented here the matter of the commission award entered against the State in the condemnation matter of property on Route 35, Section 6, Parcel 27 owned by Ruth J. Cohn; et al.,

The property owner offered no value at the hearing. Complaint was filed on March 4, 1970, and deposit was made into court in the amount of $13,900.00. Fair Market Value was registered in the amount of $13,900.00. Commissioners returned an award in the sum of $13,900.00.

The State was represented by Deputy Attorney General, Richard L. Rudin.

This is a corrected Department Action Slip correcting an error in Department Action Slip dated December 9, 1970 and which latter is herewith rescinded. (February 16, 1971)

103

Right of Way - Route 37 Freeway

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 37 Freeway, Section 1, Parcel 25 owned by Frank Kinczel; et al.

Joseph DeVito, Esq., Attorney for the Borough of Sea Girt, who advised that the action would not be contested and that the Borough would accept the established Fair Market Value by the State in the sum of $800.00 for this case. A deposit was made in the amount of $800.00.

The State called Thomas Kouradakas, Sr. Right of Way Negotiator, who testified that the Fair Market Value of this partial taking is the sum of $800.00. No testimony was offered by the Borough of Sea Girt. No appeal is recommended since the award does not exceed the Fair Market Value of $800.00 and payment thereof would be in the public interest **(February 22, 1971)**

105

Right of Way - Route 72

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 72, Section 7, Parcel L3B owned by Philip W. Hart; et al.

At the hearing before the commissioners held on January 11, 1971, the State offered testimony in the amount of $950. The property owner testified that he had intended building a home on the subject premises taken by the State but now he would have to buy an adjoining piece at the cost of $8,500. Complaint was filed on July 31, 1969 and no deposit was made into Court. Fair Market Value was registered in the amount of $950. Commissioners returned an award in the sum of $1,200.

The State was represented by Fee Attorney Julius Cohn.

It is, therefore, recommended that the award of the commissioners in the amount of $1,200, be approved.

No appeal is recommended since the Commissioners' award is fair and reasonable and the payment of the award is recommended as in the public interest. **(February 16, 1971)**

106 Right of Way - Route 78

There is presented here the matter of the appeal by the State from an award of commissioners in the amount of $27,000 in the condemnation of property on Route 78, Section 3D, Parcels 7A, 7B, 7C, L7D and L7E owned by Norbert M. Ford; et als.

At the trial before the Court sitting without a jury held on December 14, 1970, the State offered testimony in the amount of $15,040. The property owner testified to a value of $59,000. Complaint was filed on June 3, 1966 and a deposit was made into Court in the sum of $6,400. An additional deposit was made in the sum of $7,050 for a total deposit of $13,450. Fair Market Value was registered in the sum of $15,040.

The State was represented by Fee Attorney Elia Barbati, Jr.

It is, therefore, recommended that payment be made on the judgment in the amount of $28,000 plus interest and less the deposit made into Court in the amount of $13,450.

This is a corrected Department Action Slip correcting an error in Department Action Slip dated January 4, 1971 and which latter is herewith rescinded. (February 16, 1971)

107 Right of Way - Route 80

There is again presented the matter of the Judgment entered against the State in the condemnation of property on Route 80, Section 5K, Parcels 205 & 206, owned by Township of South Hackensack.

An appeal was taken to the Appellate Division from the Judgment entered by the Court and jury on appeal from the commission award. The Appellate Division affirmed the Judgment of the Trial Court. Petition for Certification to the Supreme Court to review this decision was made and was denied.

It is therefore recommended that the Judgment of $22,841.57, together with interest at six per cent from the date of the Judgment as computed by the Bureau of Titles, and taxed costs be paid into court by filing a petition in the nature of the old Bill of Interpreter with an assertion that the State claims part of the fund so deposited. (February 18, 1971)

108 Right of Way - Route 295

There is presented the matter of the Commissioners' award against the State in the condemnation of property on Route 295, Section 4, Parcel 25, owned by Carlton W. Tillinghast; et al.

This was a partial taking.

The fair market value was registered in the sum of $150.00 which was deposited into Court on February 13, 1968.

At the hearing before the Commissioners, the owner offered testimony in the amount of $1,000.00 and the State offered testimony in the sum of $150.00.

The Commissioners' award was in the sum of $1,007.00.

It is recommended that an appeal be taken from the Commissioners' award. (February 22, 1971)

Right of Way - Route 17

45 There is presented again the matter of acquisition of property on Route 17, Section 4, Control Section 0212401, Ridge Road to Route U. S. 46. Condemnation proceedings were previously authorized as the owner's demand was $47,500 which was considered excessive. The complaint, declaration of taking, and deposit was filed on January 30, 1968, and an additional deposit was made on February 3, 1970. Subsequently, a Commission Hearing was held on June 15, 1970, which resulted in an award of $56,600 which was appealed by the State.

During the trial, the Judge conferred with both attorneys in an attempt to reach an amicable settlement. After much discussion, our Trial Attorney proposed to the Right of Way Division a settlement figure in the amount of $56,600 to include the conveyance of the 0.416 acre damaged remainder to the State as being in the public interest. The Trial Attorney further indicated that damages to this remainder would be a major point of contention if the case were to continue and a verdict could not be achieved under this settlement; Right of Way concurred. This resulted in the execution of an agreement as follows:

Parcels 2R89A, R89B, R89C	Estate of Clifford Hildebrandt	Consideration $42,100.
Damaged Remainder to be acquired		14,500.
		Total Consideration $56,600.

Including the deposit of $40,700 previously withdrawn from court

These parcels have been appraised and the Reviewer's registered Fair Market Value Determination is $40,700 and the value of the damaged remainder is $14,500 totaling $55,200. The variance is not substantial considering the fact that the State is acquiring the damaged remainder and the settlement is all inclusive of the owner's claims against the State. Approval is recommended.

Authority is requested to make payment in the sum of $15,900, representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the court.

It is also recommended that condemnation proceedings previously authorized be discontinued. (February 26, 1971)

Condemnation proceedings were previously authorized for Parcel R17 and remainder as the owner's demand of $39,500 was considered excessive. During negotiations the owners expressed an unwillingness to convey the remainder (Parcel X17B) and subsequently an agreement was executed as follows:

Parcel R17 Fritz K. Hess and wife Consideration $27,800.

including a court deposit of $13,800.
previously withdrawn
Plus Replacement Housing Bonus $5,000.
to be paid on satisfaction by

and occupied a decent, safe and
sanitary replacement dwelling.

Authority is requested to dispose of the improvements to the road contractor, by public auction, or by sealed bids.

Authority is requested to close title subject to the lease occupancy. (March 4, 1971)

Right of Way - Route 295

80 ⌐ There is presented the matter of a Dwelling Lease Occupancy Agreement for the dwelling located on Route 295, Section 7, Federal Project Number ⌐ I-295-2-(45), from Crosswicks Creek to Route 33, Parcel 182.

Authority is requested to rent the dwelling to Mr. and Mrs. Wilfred Smith for a rental of $215 per month based on the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account Number 295-7-182-1. In our opinion, the $215 per month rental is fair and reasonable and is based on documentation submitted by the Trenton District Office.

The owner will have full use of the State's purchase price payment of $25,900.

Authority is also requested to close title subject to the lease occupancy. (March 4, 1971)

Right of Way - Route 295

81 ⌐ There is presented the matter of a Dwelling Lease Occupancy Agreement for the dwelling located on Route 295, Section 7, Federal Project Number ⌐ I-295-2-(45), from Crosswicks Creek to Route 33, Parcel 185.

Authority is requested to rent the dwelling to Elva and Francis Lucas for a rental of $260 per month based on the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account Number 295-7-185-1. The property consists of a residential dwelling and an additional structure utilized for commercial purposes. A thorough survey of the market indicated no comparable rental properties in the area. The owner will be in occupancy after having been paid in full by the State, thereby permitting him to the use of the Fair Market Value in the amount of $31,500. After considering this factor and the property management administrative cost to the State, it is indicated that $260 which represents 10% of the Fair Market Value on a monthly basis is a fair and reasonable rental for the property.

Authority is also requested to close title subject to the lease occupancy. (March 3, 1971)

82 Right of Way - Route 3

There is presented again the matter of acquisition of property on Route 3, Section 3, Federal-aid Project U-186-(18), Passaic River to Route 20, Parcels RT100A and RT100B, The Council in the Division of Resource Development of the Department of Conservation and Economic Development, in which condemnation proceedings were previously authorized on December 12, 1968, and on December 28, 1968 a Complaint was filed and a Declaration of Taking together with a deposit of $1,868,500.00 was made into Court.

Due to the meadowland riparian litigation and legislation, the affected properties were, in effect, unmarketable and legal direction resulted in condemnation being instituted as one massive suit covering the two parcels. All "claimants" as well as tenants and other interested parties totaling 92 were joined in the suit as defendants.

Subsequently, the Department of Environmental Protection (formerly the Department of Conservation and Economic Development) depicted a line it now claims as the limits of the riparian areas. This action abandoned the State's clair to a substantial section of the subject meadowland areas.

By an Order dated May 29, 1970, Superior Court Judge Trautwein directed the Department of Transportation to revise the initial suit so as to condemn by area of each individual owner and/or claimant. This involved 31 new parcels. The Order also required that new appraisals based on the new tideland claimant conditions be accomplished.

Two of the designated new tideland parcels owned by the Department of Environmental Protection and claimed by Bergen County Associates are Parcels T2R100A5 and T2R100A7B. These parcels have been re-appraised and a Fair Market Value has been registered in the amount of $289,500.00

It is therefore recommended that authority be granted to amend the Complaint in compliance with the philosophy of the Order of the Court and that the additional sum of $233,865.00 be deposited with the Clerk of the Superior Court, which when added to the sum of $55,635.00 already deposited therein will equal the registered Fair Market Value of $289,500.00. It is therefore recommended that authority be granted to amend the Complaint in compliance with the philosophy of the Order of the Court and that the additional sum of $47,105.00 be deposited with the Clerk of the Superior Court, which when added to the sum of $75,595.00 already deposited therein will equal the registered Fair Market Value of $122,700. **(February 26, 1971)**

It is recommended that this Warranty Deed be accepted upon approval of Title by our Chief Title Officer. **(March 4, 1971)**

99 **Right of Way - Route 56**

There is presented again the matter of acquisition of property on Route 56 (1927), Section 3, Shore Road, City of Absecon to Beach Thorofare, Atlantic City. Condemnation proceedings were previously authorized on January 31, 1964, at which time the owner refused the State's fair market value offer of $9400 and refused to state a demand or negotiate further at this time. The matter proceeded to a Commission Hearing and an award was rendered in the sum of $21,000 which was appealed by the State.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 3R14B2	Conduit and Foundation Corporation (A Pennsylvania Corp.)	Consideration including a court deposit of previously withdrawn	$12,500. $ 9,400.

The parcel has been appraised and the Reviewer's registered fair market value determination is $9400. The variance is not substantial considering the fact that accumulated interest due the owner amounts to over $5,000 as the State made entry back in 1957, and also legal costs should be considered. The agreement is all inclusive of interest and other claims against the State and would appear to be in the public interest. The Legal Division recommends settlement and Right of Way Division concurs. Approval is recommended.

It is recommended that condemnation proceedings previously authorized for Parcel 3R14B2 be discontinued.

Authorization is requested to make payment in the sum of $3100 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from court. **(February 26, 1971)**

There is presented again the matter of condemnation of property on Route 78 (1953), Section 3D, Federal-aid Project I-78-3-(4) and LSI-78-3-(3), From Lamington River to Route 287, Somerset Hills Development Corporation, A N. J. Corporation.

Condemnation proceedings were previously authorized for Parcels R3, L3C and L3D on August 19, 1969 at which time the State's registered fair market value of $37,150 was offered to and refused by the property owner whose demand of $96,000 was considered excessive. The commission action of August 19, 1969 consolidated the mainline and land-scape parcels to be acquired from this owner. The valuation date of the State's consolidated appraisals was the complaint date for mainline Parcel R3, in accordance with a legal opinion secured from the Legal Division.

Subsequently, as a result of a Court order, the State updated its appraisals as of the date of the amended complaint allowed by said Court order. The resultant re-registered fair market value in the amount of $74,200 was offered to and refused by the property owner whose demand of $147,000 is considered excessive.

Authority is requested to deposit an additional $52,990 with the Court, which when added to the amount of $21,210 previously deposited will equal the State's re-registered fair market value of $74,200. Although the commission action dated August 19, 1969 authorized an additional deposit of $15,940, this additional deposit was not made due to the resistance encountered in accomplishing the amended complaint consolidating the mainline and land-scape parcels. (March 4, 1971)

There is presented the matter of moving cost reimbursement for the owner, Christopher Poole situated in a building located on Route 78, Section 5G, Project # I-78-5-(6), from Schuyler Avenue to Elizabeth Avenue, Parcel 568.

Mr. Poole has completed his relocation and has applied for his moving reimbursement. He relocated himself utilizing the services of his own labor force as well as renting larger trucks for his relocation. He has submitted a breakdown of his cost which totaled $90. An inspection was made of the items moved and it was determined that the cost incurred was quite reasonable.

Authority is requested to pay the amount of $90 to Mr. Poole as reimbursement for his business relocation based on the breakdown and cancelled checks submitted by him. **(March 4, 1971)**

There is presented the matter of an Owners Housing Payment on Route 78, Section 5G, from Schuyler Avenue to Elizabeth Avenue, Federal Project # I-78-5-(6), Parcel 664, former owners, Ernest Weaver and Estelle, his wife.

111 Right of Way - Route 80

There is presented again the matter of condemnation on Route 80 (1953), Section 2J, Federal Aid Project I-80-2-(20), from Route U.S. 46 to Route 53, in the name of Components Corporation, a N. J. Corporation. Condemnation proceedings were previously authorized for Parcel 3R36 on January 19, 1968. On April 23, 1968 a complaint was filed and a declaration of taking in the sum of $32,200. was deposited in the Superior Court.

A commission hearing was held on February 5, 1970 and an award was rendered in the sum of $47,750. which was appealed by the State. Subsequently, the parcel was revised by the engineers to an entire taking and re-designated as Parcel 4R36. The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $54,400., which was offered to and refused by the owner who demanded $70,000. which is considered excessive.

It is therefore recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 4R36 in fee simple subject to any public utilities existing in the premises. It is further recommended that the complaint on file be amended to substitute the map and description for Parcel 4R36 in the place and instead of those previously filed.

Further authority is requested to deposit an additional $22,200. which when combined with $32,200., previously deposited, will make a total of $54,400.

Authority is also requested to dispose of the improvements to the road contractor by public auction or by sealed bids.**(March 4, 1971)**

Right of Way - Route 80

112 There is presented again the matter of acquisition of property on Route 80, Section 5K, Federal Aid Project I-80-5-(12), New Jersey and New York Railroad (Erie) at Hackensack to Hackensack River. Condemnation proceedings were previously authorized for Parcel 207 as the owners insisted upon negotiating at one time for subject parcel and various other parcels.

As the result of a package administrative settlement for Parcel 207 and numerous other parcels, the sum of $50.00, was allocated to Parcel 207. Subsequently, the engineers revised the parcel to a permanent easement which was designated as Parcel UE207 as the State did not wish to acquire it in fee. The owner's attorney agreed to execute the agreement for the acquisition of Parcel UE207, for the consideration of $1.00, as the owner was compensated for this parcel in the package settlement. Continued negotiations have resulted in the execution of an agreement as follows:

Parcel UE207 Prudential Insurance Co. Consideration $1.00

Parcel UE207 was appraised and the Reviewer's registered Fair Market Value Determination was $50.00. The agreement would appear to be in the public interest and approval is therefore recommended.

It is also recommended that condemnation proceedings previously authorized be discontinued. (February 26, 1971)

Right of Way - Route 130

113 There are presented report and appraisal with map and description on Route 130 (1953), Section 12, From Knickerbocker Road to Farnsworth Avenue, Parcel 60, plus landlocked remainder, Cecelia B. Burke, singlewoman.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple including the landlocked remainder, subject to any public utilities existing in the premises. The Fair Market Value of $19,500. for parcel 60 and $500. for the remainder, totaling $20,000. was offered to and refused by the owner who demands $350,000. which includes parcels 59A and 59B which is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation authority is requested to then file a declaration of taking and to deposit with the court $20,000. (March 4, 1971)

Right of Way - Route 206

111 There is presented again the matter of condemnation of property on Route 206, Section 9, Project-aid U-100-(9), Mile Yellow Creek To Crosswicks Creek, Parcel 13, Carmen Todaro and Camela Todaro, h/w. Condemnation proceedings were previously authorized on February 21, 1969 at which time the State's registered fair market value of $1,350 was offered to and refused by the owner who refused to state a demand.

Subsequently, an appraisal updating to the date of complaint resulted in the State's fair market value being re-registered in the amount of $3,050 which was offered to and refused by the owner, who demanded that the State acquire the entire property or provide compensation for loss of business.

The State has taken an appeal from an award in an amount of $7,500 rendered as the result of the commission hearing in this matter. The trial will probably be delayed as a result of an engineering revision. This will also delay the State's ability to compensate the owner based on a jury verdict.

For this reason authority is requested to deposit an additional $1,700 with the Court, which when added to the amount of $1,350 previously deposited will equal the State's re-registered fair market value of $3,050 and will be available to the owner for withdrawal. (March 3, 1971)

115 Right of Way - Route 280

There are presented report and appraisal with map and description on Route 280, Section 7, from Roseville Avenue to Passaic River, Parcels E58A, E58B1, E58B2, RE58C, Erie-Lackawanna Railway Company.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of these parcels, subject to any public utilities existing in the premises, as the owners agent refused a suggested settlement in the sum of $400. and refused to negotiate at this time.

These parcels were appraised and the Reviewer's registered Fair Market Value Determination is $400.

Should, prior to the ultimate fixing of compensation, any proceedings or provisions relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $400. **(March 4, 1971)**

116 Right of Way - Route 287

There is presented again the matter of condemnation of property on Route 287, Section 7, Project I-287-3-(2) From Passaic River to Annin Road.

Condemnation proceedings were previously authorized on January 3, 1968 for Parcel 35 in the name of the Township of Bernards at which time the owner was agreeable to the State's fair market value of $3,200. but was unable to convey this parcel due to faulty title.

Subsequently, it was determined that title to this parcel is in the name of John J. Larkin and continued negotiations were to no avail as the owner was unable to be located.

A subsequent appraisal updating to the date of complaint resulted in the State's fair market value being re-registered in the amount of $3,350. This re-registered value was unable to be offered to the owner whose whereabouts are still unknown.

Authority is requested to deposit an additional $150. with the Court which when added to the sum of $3,200, previously authorized for deposit, will equal the State's re-registered fair market value of $3,350. Although a deposit has not been made to date, same will be accomplished in the amount of the State's re-registered fair market value upon approval of this action. **(March 4, 1971)**

117 Right of Way - Route 295

There is presented again the matter of condemnation of property on Route 295 (1953), Section 4, Federal-aid Projects I-295-3-(30) and Esi-295-4-(1), From E. Holly-Burlington Road to Florence-Columbus Road, Parcels 32A, E32A, Thomas Dutton and wife.

Condemnation proceedings were previously authorized of February 5, 1968 at which time the State's registered Fair Market Value of $4,700. was offered to and refused by the owner whose demand of $16,000. was considered excessive.

Subsequently, an appraisal updating to the date of complaint resulted in the Fair Market Value being re-registered in the amount of $10,500. which was offered to and refused by the owner who would not state a demand.

Authority is requested to deposit an additional $5,800. with the court which when added to the amount of $4,700. previously authorized for deposit will equal the re-registered Fair Market Value of $10,500. **(February 26, 1971)**

118 Right of Way - Route 295

There are presented report and appraisal with map and description on Route 295, Section 7, Federal-aid Project I-295-2-(45), From Crosswicks Creek to Route 33, Parcel 162, Joseph Rotunda and Dora, h/w, and Charles Rotunda and Victoria, h/w.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The State's registered Fair Market Value of $36,650. was offered to and refused by the owners, whose demand of $150,000. is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $36,650. (March 4, 1971)

119 Right of Way - Route 295

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to any public utilities existing in the premises. The State's registered Fair Market Value of $67,400.00 was offered to and refused by the owners whose demand of $90,000.00 is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $67,400.00.

Upon taking of possession, authority is requested to dispose of the 1 story masonry building to the road contractor, by public auction, or by sealed bids. (March 4, 1971)

120 Right of Way - Route 295

There are presented report and appraisal with map and description on Route 295, Section 8, Federal-aid Project I-295-2-(53), From Route 33 to Route U.S. 1, Parcel 26, Edward Bralynski, Raymond Bralynski and Sido L. Ridolfi, as tenants in common.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple, subject to the sewer easement of the Township of Hamilton which traverses same and any other public utilities existing in the premises. The State's registered Fair Market Value of $9,200 was offered to and refused by the owners whose demand of $30,000., is considered excessive.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $9,200. (March 4, 1971)

121 Right of Way - Route 440

Subsequently, it has been determined by the Title Bureau that the owner cannot convey title because of liens against the property and an outstanding title interest therein. Therefore, it is recommended that authority be granted to institute condemnation proceedings for the acquisition of this parcel in fee simple subject to any public utilities existing in the premises and that the agreement dated February 8, 1965 be declared null and void.

Should, prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use, thereof, by the Department of Transportation, authority is then requested to file a Declaration of Taking and to deposit with the court the sum of $3,200. 131 There is presented here the matter of a commission award entered against the State in the condemnation of property on Route U.S. 9, Section 4, Parcel R57, owned by S. & H. Holding, Inc.; et al.,

The Complaint was filed on July 2, 1970. On July 6, 1970 the sum of $73,700.00 was paid into court. The fair market value was registered in the amount of $76,500.00.

At the hearing the owner represented by Jonathan Heilbrunn, Esquire, presented as its expert, (1) Mr. Theodore Chik who placed a value of $145,000.00 on the taking plus damages to the remainder and (2) Mr. Alfred London who placed a value of $104,200.00 for the taking and damages. The State's expert, Mr. William Ard, testified to the amount of $76,500.00. The report of Commissioners dated January 22, 1971 is in the amount of $90,500.00. A protective appeal has been filed. **(February 26, 1971)**

Right of Way - Route 15

132 There is presented here the matter of the appeal by the State from an award of commissioners in the amount of $26,000 to William H. Knipper; et al in the condemnation of real property and to John Myers; et al from an award of commissioners in the sum of $5,422 in the condemnation of an additional easement thereon on Route 15, Section 7, Parcel 5A1 owned by William H. Knipper; et al.

Trial was held on October 13, 14, 15, 19 and 20, 1970. On the first day of trial, Judge Waugh called counsel into chambers and suggested that settlement negotiations be reinstituted with respect to at least the Myers property. After consultations with David A. Biederman, of the Legal Division, settlement was made in the sum of $12,000 including interest. However, no settlement could be reached with the attorney for William Knipper; et al. Trial was, therefore, continued.

The property owner offered testimony in the amount of $45,800. The State presented testimony in the sum of $16,800. Complaint was filed on August 3, 1967 and deposit was made into Court on May 6, 1968 in the amount of $16,800. The deposit of $16,800 was withdrawn from Court on February 9, 1971. Fair Market Value was registered in the sum of $16,800. The jury returned a verdict in the sum of $34,000 plus interest.

The State was represented by Fee Attorney Edward D. McKirdy.

It is, therefore, recommended that the consent judgment in the sum of $12,000, in regard to the Myers settlement, be approved and paid together with lawful interest as computed by the Bureau of Titles.

It is also recommended that the verdict rendered in the Knipper matter in the sum of $34,000, less the deposit of $16,800, be approved and paid together with interest as stipulated in the judgment. **(February 26, 1971)**

Right of Way - Route 20 Freeway

133 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 20 Freeway, Section 2, Parcel 104 owned by Ines Russo; et al.

At the hearing before the commissioners held on January 7, 1971, the State presented testimony in the sum of $3,000. The property owner did not state a value in his testimony. Complaint was filed on August 21, 1970 and no deposit was made into Court. Fair Market Value was registered in the amount of $3,000.

The State was represented by Fee Attorney Lawrence Wolfberg.

It is recommended that the award in the amount of $3,000 be approved and paid together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended since the Commissioners' award is fair and reasonable and the payment of the award is recommended as in the public interest. **(February 26, 1971)**

134 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 24 Freeway, Section 12, Parcel 23 owned by Joan Flanagan Preston; et al.

At the hearing before the commissioners held on January 7, 1971, the State presented testimony in the amount of $30,100. The property owners offered testimony in the sum of $42,000. Complaint was filed on August 15, 1969 and a deposit was made into Court on July 2, 1970 in the amount of $20,100. An additional deposit was also made into Court on January 27, 1971 in the sum of $10,000 for a total deposit of $30,100. Fair Market Value was re-registered in the amount of $30,100. Commissioners returned an award in the amount of $40,000.

The State was represented by Fee Attorney Robert Tessler.

It is, therefore, recommended that the appeal taken from the award of the commissioners in the amount of $40,000, be approved. **(February 26, 1971)**

136 Right of Way - Route 35

This matter concerns the Consent Judgement entered in the condemnation of property located at Route 35, Section 6, Parcel 39 owned by the S.A.D. Associates, Incorporated.

At the trial before the court sitting with a jury on Monday, January 25, 1971 and after engineering testimony had been presented a Consent Judgement was entered in the amount of $22,000. The property owner's demand was $31,000. The State's Fair Market Value was in the amount of $18,500, which included the cost of the property owner to connect it's office building to a proposed sewer line extension along Route 35 from Doris Avenue. An appraisal from A.J. Lanning, consulting Sanitary Engineer, estimated that there would be an additional cost to the owner (not included in the State's F.M.V.) of $3,546 to extend the sewer line from Doris Avenue southerly along Route 35 to its property. Said extension being necessitated by the removal of the property's on-site sewage disposal system, which could not be relocated on the property. Estimate from Mr. Schonwald indicated that if the State's contractor were to construct this extension within the ROW the cost to the State would be $5,200, in addition to the the $18,500 Fair Market Value. The complaint was filed on April 8, 1970 the Declaration of TAking was filed on November 25, 1970 a deposit in the amount of

$17,800 was made on November 25, 1970.

The Commission Award was in the amount of $20,500. However, at the Commission Hearing it was assumed that the on-site disposal system within parcel 39 could be satisfactorily relocated on the remaining property. (This assumption proved false by the A.J. Lanning report.) It is, therefore, recommended that the Consent Judgement in the amount of $22,000 be approved. An additional payment should be made in the amount of $4,200, that sum being the difference between the deposit of $17,800 and the Consent Judgement of $22,000 and that interest be paid on this $4,200 overage at the rate of 6% from the date of deposit on November 25, 1970 to date of payment. **(February 26, 1971)**

Claims - Settlement

3 The Department of Transportation is carrying a claim against the A. D. Trucking Company, Inc. in the amount of $684.75 arising out of an accident occurring on June 12, 1968 involving a vehicle owned by the A. D. Trucking Co., Inc. being operated by Joseph C. Coleman. As the result of said accident, 3,000 sq. feet of grass area was damaged which had to be repaired.

The insurance carrier for the Trucking Company upon being presented with a bill refused to honor the claim on the grounds that the proximate cause of the damage was the "emergency situation created by an unidentified Oldsmobile which was backing up on the highway." The insurance carrier further indicated that there was no negligence on the part of their insured's driver. All efforts by the Claims Bureau to settle this claim by correspondence proved futile and suit was therefore filed in the Atlantic County District Court.

Subsequent to our filing suit, the insurance carrier contacted the Claims Bureau and offered the sum of 50% in order to avoid the expense of the actual trial of the case. The report prepared by the Washington Township Police contains a statement by the driver with reference to the phantom car backing up in the highway. No summons was issued to the driver for any motor vehicle violations.

In view of the circumstances, the proposed offer of settlement was discussed with Deputy Attorney General John Fitzpatrick who felt the offer was fair and reasonable and should be accepted. It is therefore our recommendation that the offer of $342.38 be accepted in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General Robert J. Bossolt and the remaining 50% of said claim be cancelled. (March 10, 1971)

49 **Right of Way - Route 4 Parkway**

There is presented the matter of a deed given by the State of New Jersey to Robert W. Goduti and Patricia Goduti, his wife, dated June 10, 1966 and recorded on July 7, 1966 in Book 2778 of Deeds at Page 710, conveying lands in the Township of Cranford, Union County, on Route 4 Parkway, Section 6, Parcels VX124, V125B, V133B and V134B for the consideration of $3,250.00 being the highest bid at a public sale held on October 21, 1965.

The deed contained a clause by which the State retained a reversionary interest. The Township of Cranford has entered into a contract with the owners to acquire the lands so affected in exchange for other lands to the mutual benefit of the parties. The Township of Cranford is hesitant to accept title subject to the reversionary interest.

Neither the advertisement of the sale nor the announcement preceding it included notice that the retention of the reversionary interest was a condition of the sale.

Submitted herewith is a form of deed for execution by the Commissioner intending to nullify, void and set aside the reversionary interest and to place title in the owners free therefrom.

It is recommended under the circumstances, and to resolve the problem confronting the owner and the Township, that the deed be executed and authority granted to deliver it to the owners for the consideration of $1.00, the full value having been included in the consideration heretofore paid. **(March 5, 1971)**

110 Right of Way - Route 3

There is presented again the matter of acquisition of property on Route 3, Section 3, Federal Aid Project U-186-(18), Passaic River to Route 20, Parcels RT100A and RT100B, The Council in the Division of Resource Development of the Department of Conservation and Economic Development, in which condemnation proceedings were previously authorized on December 12, 1968, and on December 28, 1968 a Complaint was filed and a Declaration of Taking together with a deposit of $1,868,500.00 was made into Court.

Due to the meadowland riparian litigation and legislation, the affected properties were, in effect, unmarketable and legal direction resulted in condemnation being instituted as one massive suit covering the two parcels. All "claimants' as well as tenants and other interested parties totaling 92 were joined in the suit as defendants.

Subsequently, the Department of Environmental Protection (formerly the Department of Conservation and Economic Development) depicted a line it now claims as the limits of the riparian areas. This action abandoned the State's claim to a substantial section of the subject meadowland areas.

By an Order dated May 29, 1970, Superior Court Judge Trautwein directed the Department of Transportation to revise the initial suit so as to condemn by area of each individual owner and/or claimant. This involved 31 new parcels. The Order also required that new appraisals based on the new tideland claimant conditions be accomplished.

One of the designated new tideland parcels owned by the Department of Environmental Protection and claimed by Harold Davis, et ux is Parcel T2R100B4. This parcel has been re-appraised and a Fair Market Value has been registered in the amount of $432,600.00.

It is therefore recommended that authority be granted to amend the Complaint in compliance with the philosophy of the Order of the Court and that the additional sum of $226,450.00 be deposited with the Clerk of the Superior Court, which when added to the sum of $206,150.00 already deposited therein will equal the registered Fair Market Value of $432,600.00. **(March 12, 1971)**

A commission action dated February 16, 1971 was submitted to the Commissioner and inadvertently reported to him that the sum of $55,635.00 had been previously deposited with the Clerk of the Superior Court whereas the actual amount on deposit is $177,165.00. It is therefore recommended that the Commissioner's action in this matter dated February 26, 1971 be amended to request an additional deposit in the sum of $112,335.00 which when added to the sum of $177,165.00 already on deposit with the Clerk of the Superior Court will equal the registered Fair Market Value of $289,500.00. **(March 12, 1971)**

Subsequently, the Legal Division recommended a settlement of $2,000. which was approved by the Assistant Commissioner of Highways on February 2, 1971. An executed agreement was secured by the Right of Way Division as follows:

Parcel 63	Roger McHose & Carol McHose, h/w	Consideration $2,000.

The parcel was appraised, and the Reviewer's Registered Fair Market Value Determination is $1,600. 12 **Right of Way - Route 18 Freeway**

There is presented again the matter of acquisition of property on Route 18 Freeway, Section 10, Federal-aid Project F-112-(23), from Route 34 to Route 35 Freeway.

On May 13, 1969 the Commissioner approved a purchase agreement covering the conveyance of Parcels 67A and 67B for a consideration of $4,650. from Willie Lee Johnson and Virginia Johnson, h/w which represented an administrative settlement in the sum of $250. over the State's registered Fair Market Value of $4,400.

Subsequently, our Title Bureau advised that an examination of the title disclosed a gap in the chain of title which was created by an unrecorded deed in 1940. Our Title Bureau attempted to secure a deed which proved to be futile; and accordingly authority was requested and approved on June 8, 1970 to rescind the action of May 13, 1969 and to institute condemnation proceedings for these parcels as well as to file a Declaration of Taking and to deposit with the court the State's Fair Market Value of $4,400.

Our Title Bureau now advises that these owners have been able to effect clear title to this property and that the original agreement dated April 22, 1969 should be re-instituted as the owners can now comply with its provisions.

Authority is therefore requested to rescind the condemnation commission action of June 8, 1970 and to grant authority to close on the agreement of April 22, 1969 in the sum of $4,650.

Inasmuch as the Fair Market Value deposit of $4,400. has not been effected, no request for withdrawal is necessary.

Authority is also requested to dispose of the 1-story frame dwelling and frame shed to the road contractor, by public auction or by sealed bids. (March 12, 1971)

Right of Way - Route 20 Freeway

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 52	Salvatore Veninata and Lucia Veninata, his wife	Consideration $13,500.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $13,000. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is further recommended that condemnation proceedings previously authorized be discontinued. There has been no deposit made into court.

Authority is requested to dispose of the dwelling to the road contractor by public auction or by sealed bids. **(March 12, 1971)**

Right of Way - Route 20F

41 There is presented the matter of an agreement for a self relocation payment for the removal of personal property located on Route 20F, Section 2, from Route U. S. 46 Interchange to Main Street, Parcel 307.

The tenant, Mr. R. Accessories Corp., has complied with our requirements and procedures concerning a business relocation. However, due to the complexity of his business operation he has made application for a self move. This application is based on the fact that if an outside mover was employed, it would result in an additional financial burden to the business. Further, it would require a cut down in the business operation and a reduction in the work force. It is our opinion that due to the nature of the operation as well as the financial loss to the business and employees which may occur, a self move is the only solution to this business relocation.

It is recommended that the agreement for a self move be approved and that further, authority be granted to reimburse Mr. R. Accessories Corp. up to the amount of $16,845.75 for expenses incurred in their relocation.
(March 12, 1971)

Right of Way - Route 24 Freeway

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $9,650, approval is recommended.

Right of Way - Route 35

46 There is again presented the matter of acquisition of property on Route 35 (1953), Section 5, From Route 38 To Asbury Avenue. Condemnation proceedings were previously authorized on June 2, 1970 as the owners' demand was considered excessive.

Parcels 3A & 3B	Milton Sabin and Shirley Sabin, h/w	Consideration $3,350.

The parcels were reappraised and the Reviewer's Reregistered Fair Market Value Determination is $2,450. The variance is not substantial and the agreement would appear to be in the public interest.

Upon taking of possession, authority is requested to dispose of two light poles, one frame shed, one wooden sign, and stockade fencing, to the road contractor, by public auction or by sealed bids.

Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (March 17. 1971)

Right of Way - Route 35

47 There is again presented the matter of acquisition of property on Route 35 (1953), Section 6, Asbury Avenue to Eatontown. Condemnation proceedings were previously authorized on July 8, 1970, as the owner refused to complete negotiations at that time.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 36E	Real Properties, Inc. (A N. J. Corp.)	Consideration $12,000.

The parcel was appraised, the Reviewer's Registered Fair Market Value Determination is $11,250. The variance is not substantial and the agreement would appear to be in the public interest. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (March 12, 1971)

Right of Way - Route 35

48 There is again presented the matter of acquisition of property on Route 35 (1953), Section 6, Asbury Avenue to Eatontown. Condemnation proceedings were previously authorized on December 31, 1969 as the owner refused the State's Suggested Settlement and refused to negotiate further at that time.

Subsequently, a Commission Hearing was scheduled, but prior to convening the Hearing an offer of settlement was received from the agent. Continued negotiations have resulted in the execution of an agreement as follows;

Parcel 65	William R. Smith, Single, and Virginia C. Smith, Single	Consideration $4,800.

The parcel was reappraised and the Reviewer's Reregistered Fair Market Value Determination is $4,150. The variance is not substantial and the agreement would appear in the public interest.

It is recommended that this agreement be approved and that the condemnation proceedings previously authorized be discontinued.

Condemnation proceedings were previously authorized on January 14, 1969, at which time the owner refused the State's offer and refused to state a demand. Subsequently, due to a legal opinion relative to damages, a new appraisal was ordered and the fair market value was re-registered in the sum of $24,700.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 44C	James J. Black and wife	Consideration	$24,700
		including a Court deposit of previously withdrawn	19,650

The parcel has been appraised and the Reviewer's registered fair market value determination is $24,700. Approval is recommended.

It is recommended that condemnation proceedings previously authorized for Parcel 44C be discontinued.

Authorization is requested to make payment in the sum of $5050 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from court. **(March 17, 1971)**

50 Right of Way - Route 295

There is presented again the matter of acquisition of property on Route 295 (1953), Section 3, Federal-aid Project I-295-2-(29), Marne Highway to Mount Holly-Burlington Road. Condemnation proceedings were previously authorized on July 24, 1968, as the owner refused to state a demand or negotiate further at this time.

Subsequently, the matter proceeded to an uncontested Commission Hearing which resulted in an award for which the owner appealed.

Our Legal Division subsequently submitted special directions to the effect that the appraiser had improperly deducted special benefits from the property. Deputy Attorney Edward Schwartz, in his letter dated January 23, 1970, ruled that general benefits should apply and not special. An additional appraisal was ordered at Legal's instruction in order to be better prepared for the trial.

The appraisals were reviewed which resulted in the fair market value being re-registered in the sum of $1400.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 52D	Milton Hofkin and wife	Consideration	$1400.

There is presented again the matter of acquisition of property on Route 295 (1953), Section 3, Federal-aid Project I-295-2-(29), Marne Highway to Mount Holly-Burlington Road. Condemnation proceedings were previously authorized on October 18, 1968, at which time the owner refused the State's offer of $2,500. and demanded $9060. which was considered excessive.

The matter proceeded to a Commission Hearing based on the fact that the property was landlocked and an award was rendered in the sum of $3700. which was appealed by the owner. Subsequently, due to a court ruling that the owner had legal access, the parcel was appraised on that basis and the Fair Market Value re-registered in the sum of $16,400.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcels 56A & 56B	I.R.B. Corporation (a N.J. Corp.)	Consideration $17,000

The parcel has been appraised and the Reviewer's registered fair market value determination is $16,400. The variance not being substantial, the agreement would appear in the public interest. Approval is recommended.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 1B	Foreign War Veterans Home Association of Hamilton Township	Consideration $9,500.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $8,500. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

54 Right of Way - Route 295

There is presented the matter of a Dwelling Lease Occupancy Agreement for the dwelling located on Route 295, Section 7, Federal Project I-295-2-(45), from Crosswicks Creek to Route 33, Parcel 196.

The rental arrangement is necessary to provide temporary replacement housing on an emergency basis to the family of Mr. Anthony Costa who is being evicted from his home required for the construction of the Route 295, Section 5 project in Burlington County. Due to the extenuating circumstances present in this case, and since a court ordered eviction is involved, the rental set in the amount of $75 per month is based on the family's ability to pay and does not reflect economic rental for the structure to be leased.

Authority is requested to rent the dwelling to the family of Anthony Costa for a rental of $75 per month based on the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account Number 295-7-196-2. **(March 22, 1971)**

55 Right of Way - Route 3

There is presented again the matter of acquisition of property on Route 3, Section 3, Federal-aid Project U-186-(18), Passaic River to Route 20, Parcels RT100A and RT100B, The Council in the Division of Resource Development of the Department of Conservation and Economic Development, in which condemnation proceedings were previously authorized on December 12, 1968, and on December 28, 1968 a Complaint was filed and a Declaration of Taking together with a deposit of $1,868,500.00 was made into Court.

Due to the meadowland riparian litigation and legislation, the affected properties were, in effect, unmarketable and legal direction resulted in condemnation being instituted as one massive suit covering the two parcels. All "claimants" as well as tenants and other interested parties totaling 92 were joined in the suit as defendants.

Subsequently, the Department of Environmental Protection (formerly the Department of Conservation and Economic Development) depicted a line it now claims as the limits of the riparian areas. This action abandoned the State's claim to a substantial section of the subject meadowland areas.

By an Order dated May 29, 1970, Superior Court Judge Trautwein directed the Department of Transportation to revise the initial suit so as to condemn by area of each individual owner and/or claimant. This involved 31 new parcels. The Order also required that new appraisals based on the new tideland claimant conditions be accomplished.

One of the designated new tideland parcels owned by the Department of Environmental Protection and claimed by Bergen County Associates is Parcel T2RL00B6A. This parcel has been re-appraised and a Fair Market Value has been registered in the amount of $623,400.00.

It is therefore recommended that authority be granted to amend the Complaint in compliance with the philosophy of the Order of the Court and that the additional sum of $313,155.00 be deposited with the Clerk of the Superior Court, which when added to the sum of $310,245.00 already deposited therein will equal the registered Fair Market Value of $623,400.00. **(March 22, 1971)**

56 Right of Way - Route 3

There is presented again the matter of acquisition of property on Route 3, Section 3, Federal-aid Project U-186-(18), Passaic River to Route 20, Parcels RT100A and RT100B, The Council in the Division of Resource Development of the Department of Conservation and Economic Development, in which condemnation proceedings were previously authorized on December 12, 1968, and on December 28, 1968 a Complaint was filed and a Declaration of Taking together with a deposit of $1,868,500.00 was made into Court.

This involved 31 new parcels. The Order also required that new appraisals based on the new tideland claimant conditions be accomplished.

One of the designated new tideland parcels owned by the Department of Environmental Protection and claimed by Ancorp Realty Company, Inc. is Parcel T2R100All. This parcel has been re-appraised and a Fair Market Value has been registered in the amount of $49,800.00.

It is therefore recommended that authority be granted to amend the Complaint in compliance with the philosophy of the Order of the Court and that the additional sum of $14,005.00 be deposited with the Clerk of the Superior Court, which when added to the sum of $35,795.00 already deposited therein will equal the registered Fair Market Value of $49,800.00. **(March 22, 1971)**

Right of Way - Route 15

57 There is presented again the matter of acquisition for Parcel R69A on Route 15 (1953) Section 2, Berkshire Valley Road to Morris-Sussex County Line, from the Arthur D. Crane Co.

On January 8, 1970, the Assistant Commissioner, Highways, approved an agreement whereby the Arthur D. Crane Co. was to convey Parcel R69A together with the necessary slope rights for a consideration of $20,000.00. An examination of title disclosed that a small portion of the slope was not owned by the Arthur D. Crane Co. This small slope area has been separately appraised and has a fair market value of $150.00.

It is recommended that authority be granted to deduct the sum of $150.00 from the consideration, with payment to be made only in the sum of $19,850.00, upon consummation of the agreement in all other respects. **(March 22, 1971)**

The State's registered Fair Market Value of $8,100 was offered to the owner who refused to negotiate pending the outcome of a suit taken against the Department of Transportation in U. S. District Court to prevent this acquisition.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $8,100. **(March 12, 1971)**

Condemnation proceedings were previously authorized on January 17, 1967 at which time the State's registered fair market value of $21,500 was offered to and refused by the owner whose demand of $40,000 was considered excessive.

An appraisal updating to the date of complaint resulted in the State's fair market value being re-registered in the amount of $24,650. which was offered to and refused by the property owner.

It was subsequently determined that the State's appraiser had failed to take into consideration substantial slope rights to be acquired with the fee taking. An appraisal addendum and additional appraisal resulted in the State's fair market value being re-registered in the sum of $62,300 which has been offered to and refused by the owner who has demanded $300,000.

Authority is requested to deposit an additional $40,800 with the Court which when added to the sum of $21,500 previously deposited will equal the State's re-registered fair market value of $62,300. (March 12, 1971)

Claims - Settlement

6 The Department of Transportation is carrying a claim on its books against the Rentways, Inc., Linden Packing Co., and Huston Forshee in the amount of $1,231.54 arising out of an accident occurring on the Passaic River Bridge, Route 3, on July 20, 1964 involving a vehicle owned by Rentways, Inc., being operated by Huston Forshee, which at the time of the accident was leased to and on the business of Linden Packing Co. All efforts to settle this claim were unsuccessful and the Claims Bureau had no alternative but to institute civil litigation which was filed in the Essex County District Court.

Subsequent to filing these papers, but prior to trial, a settlement was reached between the Deputy Attorney General assigned to this case and the attorneys representing the defendants. Our Deputy was advised by his adversary that they had an independent appraisal made as to the damage sustained by the State property which amounted to approximately $400.00 in contrast with the $1200.00 figure claimed by the State. Since both sides were prepared to produce witnesses to testify as to the cost of repairs, it appeared to our Deputy that the most probable result would be a compromised figure arrived at by the Court rather than the full amount of our claim.

If the case went to trial it would be necessary to produce a number of witnesses, as well as trial counsel with the resultant expense to the State. The attorneys representing the defendants offered the sum of $800.00 in full settlement of the Department's claim which for the foregoing reasons was accepted by our attorney as a fair and reasonable settlement figure.

re: N. J. Dept. of Transportation v. Rentways, Inc., et als cont'd.

It is therefore our recommendation that the sum of $800.00 be accepted in full settlement of the Department's claim presently being carried in the amount of $1, 231.54 in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General David A. Biederman. (March 31, 1971)

Claims - Settlement

7 The Department of Transportation is carrying a claim against Best Tile Co. and Arthur J. McQuillan in the amount of $120.28 arising out of an accident occurring on April 6, 1962 involving a vehicle owned by Best Tile Company and a vehicle owned and operated by Arthur J. McQuillan. As the result of said accident, Departmental directional signs were damaged and had to be repaired at a cost of $120.28.

Suit was instituted by Arthur McQuillan against Best Tile Company and its operator, John J. Morgan. The Department's claim was held in abeyance to await the outcome of the litigation so that the responsible party could be determined. Subsequent to filing suit, the plaintiff a member of the United States Armed forces was sent to Europe and the case was placed on the military list. Upon his return, the suit was settled without trial and the insurance carrier for the defendant indicated that the settlement was based on a compromise and that they were not acknowledging full responsibility for the State's claim.

Subsequent negotiations by the Claims Bureau has now resulted in the insurance carrier offering 50% of our claim. We ascertained that the sum of $25.24 could be allowed as a depreciation item. This would reduce our claim to $95.04. In view of the age of this claim, as well as the small amount involved, it is our recommendation in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General David A. Biederman that the offer of $60.14 be accepted in full settlement and that the balance in the amount of $34.90 be cancelled. **(March 31, 1971)**

Claims - Settlement

8 The Department of Transportation is carrying two claims against Midwest Emery Freight System, Inc. arising out of accidents occurring on July 28, 1969 and August 8, 1969. In the July accident the vehicle was owned and operated by William H. Mulder and in the August accident, the vehicle involved was owned and operated by Archie E. Fletcher.

Subsequent to our presenting billings to the Midwest Emery Freight System, we were advised that the operators of the vehicles involved which were identified as employees of the Midwest Emery Freight at the time of the accidents, were not in fact employees of the Freight carrier. We were further advised that each individual driver had leased his vehicle to the Midwest Emery Freight on a one trip basis. By the terms of said lease, Midwest Emery was to be held harmless by the lessor, which indemnification would extend to the type of claims being presented by the Department of Transportation.

After considerable correspondence, Midwest Emery advised the Claims Bureau that they would in the interest of good business practice absorb 50% of the Department's damages. This offer being made even though Midwest Emery was under no legal obligation to honor our claims. The proposed offer of settlement was discussed with counsel for the Department of Transportation who is of the opinion that in view of the circumstances involved and we are dealing with out-of-State individuals who have ignored our correspondence, he feels the best interest of the State would be served if we accepted the proposed offer of settlement.

It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman, that the sum of $327.41 be accepted in full settlement of the accident occurring on August 8 involving Electrical Claim #7780 and that the sum of $138.20 be accepted in full settlement of the July 28 accident involving Equipment Claim #3361. The check for $138.20 also includes the sum of $15.20 representing 50% of the cost of medical treatment rendered a Department employee who sustained minor injury in the accident of July 28, 1969 for which the Department was required to expend the sum of $30.40 for emergency treatment at the Holy Name Hospital, Teaneck, New Jersey. **(March 31, 1971)**

Right of Way - Route 37

61 There is presented again the matter of Acquisition of property on Route 37, Section 4A, Garden State Parkway to Washington Street. Condemnation proceedings were previously authorized for Parcels R123 and X123B, George D. Wolf and Harriet I. Wolf, h/w on June 5, 1969 and for Parcel 2R124 and X124B, Baiamonte Brothers, Inc., on May 8, 1970 as the owners' demands were considered excessive. The State's total registered fair market value for these parcels was in the amount $148,400.

The history regarding negotiations of these parcels from their inception reflects attempts by the property owners to limit the State's acquisition to the mainline parcels only, although the remainders were damaged almost 100%. The property owners were successful in obtaining the State's trial attorney's consent to the deletion of Parcel X124B, and Parcel X123B was deleted over the State's objection by Court order. By consent order, Parcel R123 and R124 were consolidated for the Commission Hearing as Baiamonte Brothers, Inc. had acquired equitable title to Parcel R123. A hearing was held for these parcels on May 8, 1970 and an award was rendered in the amount of $140,000 which was appealed by the State.

Subsequently, the engineers revised the map to include denial of access. Negotiations were continued for the entire property as damages were extensive. The remainders were included on the maps as X124B and X123B. Offers were tendered in the total amount of $148,400.

Prior to the trial, Judge Grossman called a conference in an attempt to bring about an amicable settlement, due to the fact that the State moved to appeal to amend the complaint to include all parcels to make an entire taking.

A compromise settlement was reached by our Trial Attorney Julius Conn with the owners in the amount of $162,500 for the entire property in which the Right of Way Division concurred, thus, the matter of the appeal has become moot. The owners executed agreements as follows:

Parcels R123,X123B 2R124,X124B	Baiamonte Bros.,Inc. (A N.J. Corp.) and Harriet I. Wolf under contract of sale to Baiamonte Bros., Inc. (George D. Wolf has deeded his interest to Harriet I. Wolf.)	Consideration $162,500.

including the court deposit of $ 10,800. previously withdrawn by sellers

The parcels were appraised and the reviewers total registered fair market value is in the amount of $148,400. The variance is not substantial considering the fact that this is a package settlement which includes all claims against the

State including interest. The case is over two years old and legal costs can be considered. The agreements appear to be in the public interest and the Legal Division recommends approval. Further authority is requested to discontinue condemnation proceedings.

Authority is requested to make payment to the owners in the sum of $151,700 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from Court. Authority is also requested to withdraw the sum of $61,900 remaining on deposit with the Court.

The improvements have been demolished by the contractor in the performance of his duties. (March 25, 1971)

62 Right of Way - Route 287

There is presented again the matter of acquisition of property on Route 287 (1953), Section 10, Federal-aid Project I-287-2-(14), from Route 24 to Route 10. On August 3, 1970 an agreement was approved in the sum of $2,500.

Prior to a Commission Hearing in April of 1969 the Legal Division reached a tentative settlement in the sum of $13,150 for two separate cases to be acquired from this owner. Written offers were executed by the owner but were not approved by the State due to a misunderstanding regarding access to the owners remaining property.

Subsequently, Deputy Attorney General Edward Schwartz settled both parcels for a lump sum of $13,900 as follows: Parcel 224A $10,650 and Parcel UER224B $3,250. Inadvertently due to a mix up in the agreements, the unacceptable agreement form for Parcel UER224B in the wrong amount was submitted by the Legal Division to Right of Way for processing which was approved by the Commissioner.

Subsequently, the owners attorney brought this to the State's attention. Agreements with the owners were executed as follows:

Parcel UER224B	Betty Miller Olson & Rudolph Olson, her husband	Consideration $3,250.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $2,300. The variance is not substantial considering the fact that the case is over two years old and legal costs must be considered and also interest due the owner. The agreement appears to be in the best interest of the State and the Legal Division recommends approval. Authority is also requested to transmit the agreements to the Hanover Sewerage Authority for closing and to re-imburse the Hanover Sewerage Authority in the amount of $3,250 plus closing costs in accordance with a utility order contract approved by the Commissioner on May 7, 1968.

Further authority is requested to rescind the commission action dated August 3, 1970 and that the previous agreement in the amount of $2,500 be declared null and void. (March 23, 1971)

The rent is based on an analysis of rentals in the present market for comparable units. It is a reduction from the tenants previous rent since the area rented has been reduced from 8,000 sq. ft. to 1,000 sq. ft. It is our opinion that this monthly rental is fair and reasonable.

102 There is presented the matter of settlement in the condemnation of property on 18Fwy., Section 10, Parcel 31 owned by the unknown heirs, devisees and personal representatives of James Ransom; et al.

A complaint in the above entitled matter was filed on April 1, 1969. Fair Market Value was re-registered in the amount of $1,000. A commission award of $2,500 was entered. A trial was scheduled for February 22, 1971. This partial taking is encumbered by an extended slope easement and diversionary road which would result in the loss of many trees. These factors would leave the State open to additional exposure. As a result, a Consent Judgment in the amount of $1,500 was entered into between the State and the condemnee.

It is therefore recommended approval be granted said Consent Judgment in the amount of $1,500. Because of the involved title problems, it is further recommended that said sum be paid into court.

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 37 Freeway, Section 3, Parcel 21B, owned by Jacob Mayer; et al.,

At the hearing before the commissioners the State presented Mr. Gordon Pott who testified to the fair market value of $500.00. The owner did not appear at the commission hearing. However, the owner had previously executed an agreement, whereby he agreed to sell the subject to the State for $600.00. Because the spouse of a deceased mortgagee resides in England, condemnation was made necessary. Complaint was filed on March 5, 1970 and deposit was made into Court on March 9, 1970 in the amount of $275.00. Fair Market Value was registered in the amount of $500.00. Commissioners returned an award in the amount of $600.00.

Parcels 6A,B,C,D L6E, LR6F	Eleanor Barbara Zetterstrand and Gunnar K., h/h, Edward Thomas Milnor and Dorothy B., h/w, Somerset Trust Company, Guardian of the property of William Lawrence Milnor, a Minor, Somerset Trust Company, Guardian of the property of Sally Ann Milnor, a Minor	Consideration $95,000.

including the court deposit of $71,200. previously withdrawn by the seller

The variance between the fair market value in the amount of $71,200 and the settlement figure is substantial. However, the fact should be taken into account that entry was made in 1964 prior to the Declaration and Court Deposit Law and interest due the owner amounts to some $20,000. Additionally, the case being over two years old, legal costs can be considered. Furthermore, landscape parcels were added subsequent to the complaint date for the mainline parcels, and the owner would attempt to secure by court order a valuation date for the landscape parcels as of the amended complaint date. The agreement would, therefore, appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued.

Further authority is requested to make payment of the sum of $23,800 representing the difference between the consideration provided for in the agreements and the deposit withdrawn from Court. (April 2, 1971)

Claims - Settlement

The Department of Transportation is carrying a claim against the Borough of Lindenwold, James B. Knouff and Florence Heggen arising out of an accident occurring on February 19, 1970 involving a vehicle owned by the Borough of Lindenwold, operated by James B. Knouff and a vehicle owned and operated by Florence Heggen. As the result of said accident, traffic signal equipment was damaged and had to be repaired at a cost of $584.85. This figure was reduced to the sum of $509.85 by a revised billing allowing the sum of $75.00 for salvage and depreciation.

Negotiations conducted by the Claims Bureau with the two insurance carriers involved resulted in the matter being settled for the sum of $429.99. One carrier paying the sum of $168.21 and the other $261.78 making a total of $429.99. There was disagreement between the carriers as to who was responsible for the accident and the resultant damage. Negotiations by the Claims Bureau resulted in one carrier paying 50% and the second reluctantly paying 25% as they did not feel their assured was in any way responsible for our damage.

By accepting the sum of $429.99 in full settlement of our claim amounting to $509.85 we are actually waiving the sum of $79.86. In order to collect the full amount of our claim it would be necessary for this office to institute appropriate legal proceedings which undoubtedly would cost us more than the sum we are now actually waiving. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman that the sum of $429.99 be accepted in full and final settlement of the Department's claim and the balance amounting to $79.86 be cancelled. **(April 12, 1971)**

At the hearing held on January 15, 1971 before the commissioners the State presented Mr. Steve Segal who testified to a fair market value of $10,500. The property owner presented Mr. John D. Lazarus who testified to a value of $23,400. Complaint was filed on March 19, 1968 and a deposit was made into court on March 19, 1968 in the amount of $4,700. An additional deposit was made into Court on February 26, 1971 in the amount of $5,800, making a total deposit of $10,500. Fair Market Value was re-registered in the amount of $10,500. Commissioners returned an award in the amount of $18,000.

The cases were consolidated by the court prior to a Commission Hearing held on August 20, 1970, for Parcels 92A1, 92A2, 92B, 92C, 92D1, 92D3, X92J, X92W, X92U1, X92Y, XR92M2. The award of $150,000 was appealed by the State as it was in excess of the State's registered fair market value determination of $140,200.

Subsequently, a map revision was required due to the fact that the owner's land was less than what our maps indicated. The appraisals were adjusted to reflect the map change.

A pretrial settlement conference was held on the day of the trial and an offer of settlement from the owner was suggested in the amount of $150,000 in which the State was to acquire the remainders. Agreements were secured as follows:

			Consideration

plus remnant to be acquired	2,800		$9,250

plus three remnants	$ 7,500		$36,250
		Total Consideration	$150,000
		including a court deposit of previously withdrawn by seller	$140,200

The parcels were appraised and the re-registered fair market value determination is now $113,103, the value of remnants being $35,397, totaling $148,500. The variance is not substantial considering the fact that the State is acquiring all the remainders which appears to be in the public interest. Approval is recommended.

108 There is presented again the matter of acquisition of property on Route 440 Freeway, Section 3, Federal-aid Project U-209-(3), Route 35 to Outerbridge Crossing Bridge Plaza. Condemnation proceedings were previously authorized on January 3, 1968, and a complaint was filed on May 28, 1968.

Continued negotiations with the owners, William J. Giles and Emma E. Giles, his wife, covering the acquisition of this parcel designated as Parcel 109, resulted in the execution of an agreement in the sum of $14,750, which included a down payment of $3,600; and which was approved by the Commissioner on June 7, 1968.

Since that time, numerous attempts have been made by the owner and our Title Bureau to have the mortgagee to furnish a statement as to the amount necessary to satisfy the mortgage and secure its cancellation of record, to no avail.

Our Title Bureau now recommends that the agreement of $14,750 as well as the Commission Action of June 7, 1968, be rescinded and that condemnation proceedings be re-instituted to acquire the property. Our Title Bureau reports that the owner's attorney is willing to have the award entered in the contract price and will also enter into a stipulation that the STate is entitled to regain the down payment of $3,600 from such award.

Authority is therefore requested to rescind the agreement and the action of June 7, 1968 and to institute condemnation proceedings in fee simple subject to any public utilities in the premises. Authority is also requested to file a Declaration of Taking and to deposit in the Superior Court the sum of $11,150. which represents the balance of the $14,750. less the $3,600. paid as a down payment. The building which was partially within the area of the taking and partially outside the new right of way was demolished by the contractor in the performance of his duties. (April 19, 1971)

Right of Way - Route 17

112 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $79,200 in the condemnation of property on Route 17, Section 4, Parcel 62A owned by Riggio Holding Corporation; et als.

At the trial before the Court and a jury held on January 19, 20, 21, 1971 the owner offered testimony in the amount of $112,181. The State offered testimony in the amount of $63,300. Complaint was filed on May 29, 1968 and a deposit was made into court on May 29, 1968 in the amount of $56,500. Fair Market Value was re-registered in the amount of $63,300. The jury gave an award in the amount of $80,000.

The State was represented by Fee Attorney Biger M. Sween.

It is, therefore, recommended that payment be made on the judgment in the amount of $23,500 plus interest as stipulated in the judgment, which is the sum of the jury award in the amount of $80,000, less the deposit of $56,500, which deposit was already paid to said defendant. **(April 14, 1971)**

Right of Way - Route 18F

113 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $11,750 in the condemnation of property on Route 18F, Section 8, Parcel 34A, owned by the Jocama Construction Corp.

At the trial, held on March 15, 16 and 17, 1971, the property owner offered testimony in the amount of $63,700. The State presented testimony in the amount of $7,800. Complaint was filed on February 18, 1970. There was no deposit paid into Court. Fair Market Value was registered in the amount of $7,800. The jury returned a verdict in the amount of $15,000.

The State was represented by Fee Attorney David H. Rothberg.

It is, therefore, recommended that payment be made on the judgment in the amount of $15,000 plus interest as stipulated in the judgment. **(April 14, 1971)**

114 **Right of Way - Route 18 Freeway**

There is presented here the matter of the appeal by the State from an award of commissioners in the amount of $4,000 in the condemnation of property on Route 18 Freeway, Section 8, Parcels 35B and DA35C owned by Nine-Eighteen, Inc., et al.

At the trial held on February 22, 23 and 24, 1971 the property owner offered testimony in the amount of $59,000. The state presented testimony in the amount of $2,000. 115 Right of Way - Route 18 Freeway

There is presented the matter of the Commissioners' award, on settlement, in the condemnation of property on Route 18 Fwy., Section 10, Parcels R37A & X37B, in the Township of New Shrewsbury, Monmouth County, owned by Marguerite M. Baker, individually and as Executrix of the Estate of Gertrude A. Mayberry, deceased, et als.

The complaint was filed August 7, 1970. The last registered fair market value is the sum of $41,100. The owner was prepared to prove an evaluation of $48,600. Prior to the actual hearing before the Commissioners, a settlement of $43,100 was reached and concurred in by Angelo A. Alfano, Supervisor, Bureau of Acquisitions. This amount is reasonable and not substantially in excess of the fair market value. If litigated the award could exceed the sum of $43,100; and conceivably, on appeal, a jury verdict could likewise be greater than said amount.

It is recommended that no appeal should be filed in that the Commissioners' award of $43,100. is fair and reasonable and its payment would be in the public interest.

It is recommended that the award of $43,100 be approved and paid together with lawful interest as computed by the Bureau of Titles.

(April 15, 1971)

116 Right of Way - Route 20F

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 20F, Section 2, Parcel 223 owned by Vincent Gurnari.

At the hearing before the commissioners the State offered testimony in the amount of $1,400 which was the registered fair market value. Two of the owners testified that the property had recently been improved but they offered no testimony as to the value of the taking. Complaint was filed in this matter on June 3, 1970. There has been no deposit with the court. The report of commissioners was in the amount of $2,000.

It is, therefore, recommended that the commissioners' award in the sum of $2,000 be approved and that payment of this sum be made. Lawful interest as computed by the Bureau of Title is also due. Cost in terms of time and fees dictates that no appeal be taken. (April 15, 1971)

117 Right of Way - Route 21F

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 21F, Section 4, Parcels 19B, C, D, E, F owned by the City of Passaic; et al.

At the hearing before Commissioners held on March 5, 1971, the State and the property owner offered a separate testimony for each parcel and the Commissioners gave a separate award for each parcel.

PARCEL	OWNER	STATE	AWARD
19B	$422,000	$165,000	$281,000
19C	4,333	300	1,950
19D	8,300	500	5,251
19E	2,850	200	1,375
19F	55,450	34,100	44,550
	$492,933	$200,000	$334,076

Fair Market Value was re-registered in the amount of $200,000. Complaint was filed on January 20, 1967. There was a deposit made into Court on January 19, 1967 in the amount of $178,800 and an additional deposit was made into Court on May 8, 1970 in the amount of $21,200, making a total deposit of $200,000.

The State was represented by Fee Attorney Harry J. Riskin.

Since the Commissioners' award in the amount of $334,076 exceeds the State's Fair Market Value by $134,076, it is recommended that the appeal taken be approved. **(April 14, 1971)**

118 **Right of Way - Route 55F**

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 55F, Section 5, Parcels 3A, 3B & 4A owned by Glendon Pernel and Annabelle, his wife.

At the hearing before commissioners no testimony was offered. The property owner appeared with his attorney; and his attorney suggested that we agree to a value of $600. We agreed upon this sum.

The Complaint was filed May 31, 1967. The Declaration of Taking was filed on May 31, 1967 and a deposit of $500 was made on that date.

It is therefore recommended that the award in the amount of $600 be approved; and that payment be made in the sum of $100, that being the difference between the deposit of $500 and the award in the amount of $600. **(April 15, 1971)**

The jury returned a verdict in the amount of $3,000.

The State was represented by Fee Attorney John F. Cannon.

It is, therefore, recommended that payment be made on the judgment in the amount of $3,000 plus interest as stipulated in the judgment and less the deposit paid into Court in the amount of $1,500. **(April 19, 1971)**

120 **Right of Way - Route 70**

There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 70 (1953), Section 3, Parcel 17 owned by Angelo D. Rinaldi and Eugenia Rinaldi, his wife.

At the hearing before the commissioners the State offered testimony in the amount of $13,100. The registered fair market value was $13,650. The owner, Mr. Rinaldi, testified that commercial frontage was valued at $10,000 per acre in the area in question, but the owner offered no expert testimony. The complaint was filed in this matter on August 7, 1970. No deposits have been made into court. The report of commissioners was in the amount of $19,500.

There is presented the matter of a Dwelling Lease Occupancy Agreement for an apartment located on Route 78, Section 5D, Project No. I-78-5-(3), from Springfield Avenue to Garden State Parkway, Parcel 252A, B & C.

Authority is requested to rent the subject apartment to Stanley and Kathryn Schneider for a rental of $121 per month based upon the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account # 78-5D-252A, B & C-2.

The rent charged is based on an analysis of rentals in the present market for comparable apartments. It is an increase from the tenants previous rent of $106 per month since the State will provide heat and water. Consideration in establishing the rent was also given to the fact that the occupants will act as superintendents of the building. It is our opinion that this monthly rental is fair and reasonable.

This unit is owner occupied and has not been previously rented. Since similar type one family dwelling units were not available in the immediate area for comparable purposes, a rental factor of 10% of the acquisition price, which was $21,400.00, was used as the basis for establishing a suitable rent. This comes to $178 per month. However, consideration was also given to the fact that the occupants will maintain the premises in regards to safety and sanitation and will provide their own heat and hot water. Based on this, the rent to be charged will be $140 per month which is considered to be fair and reasonable.

Authority is also requested to close title subject to the lease occupancy. **(April 19, 1971)**

A commission hearing was held and an award was rendered in the sum of $577,450 which was appealed by the State as it was in excess of the State's total fair market value of $455,900.

Subsequently, our Special Counsel achieved a settlement in the amount of $510,000. which was concurred in by the Right of Way Division. However, the owners refused to execute the agreements as they claimed water damages to their remainder. Special Counsel Lewis L. Krieger stated that the Engineering Department estimated the cost to cure the water drainage problems was in the sum of $26,000. This agreement is submitted to the Commissioner for his consideration and should the Commissioner approve this agreement, authority is requested to make payment of the sum of $78,600 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the Superior Court.

Further authority is requested to discontinue the condemnation proceedings previously authorized. Authority is requested to withdraw from the Court the sum of $7,500 remaining on deposit.

At the time that he submitted the estimates, a road contract was in effect in the immediate area, and in an effort to cooperate with the State, Mr. Snyder agreed to vacate the premises immediately but was unable to coordinate his relocation with the movers chosen by him. Utilities - Route 78

13

PUO-18B-78-5J was issued on December 1, 1966 in the amount of $658,000.00 to cover the costs to be incurred by the Company in replacing a number of wells and appurtenances which were to be lost as a result of ultimate Route 78 construction.

Wells producing the required gallonage lost were drilled at State expense but the quality of the water is unacceptable to the State Department of Health.

At a recent meeting attended by the Water Company, the Bureau of Public Roads, the Department's Design Unit, a representative of the State Department of Health and representatives of the U.S. Department of Interior, Geological Survey, Bureau of Water Resources, it was agreed that further tests on the wells dug at State expense were required and that such tests would be best performed by an impartial agency such as the U.S. Department of Interior. It was estimated that it would cost the U.S. Department of Interior $6,000.00 to perform the tests. Design did not consider this cost properly chargeable against the Public Utility Order and suggested that the Water Company pay the costs.

The U.S. Department of Interior could not enter into a cooperative agreement for investigation of water resources directly with the Elizabethtown Water Company and this Department, therefore, agreed to act as agent for the Elizabethtown Water Company. Attached are 5 copies of an agreement prepared by the U.S. Department of Interior calling for that Department to do certain investigation for the New Jersey Department of Transportation. The Agreement indicates that the U.S. Department of Interior will absorb $2,000.00 of the costs and that the Department of Transportation will absorb $4,000.00. (The D.O.T. share is to be paid by the Elizabethtown Water Company).

It is recommended that this matter be presented to the Commissioner for his signature of the 5 copies of the cooperative agreement aforesaid.

On May 3, 1971, Design, by memorandum, transmitted to Mr. Bridegum, Director of Auditing and Accounting, a check dated April 29, 1971, in the amount of $4,000, from the Elizabethtown Water Company to serve as full reimbursement of the costs State has assumed under the agreement attached.

The results of the subsurface investigation may establish further financial responsibility by this Department. (May 21, 1971)

Claims - Settlement

20 The Department of Transportation is carrying a claim against Melvin E. Elliott in the amount of $1,313.45 arising out of an accident occurring on March 2, 1970 involving Department vehicle bearing Reg. TD 9003 being operated by Manfred Manrodt, and a vehicle owned and operated by Melvin E. Elliott. The Department's claim in the amount of $1,313.45 was set up by using the retail market value of this vehicle, less salvage, to which Department's towing charges were added.

The insurance carrier for the other vehicle involved offered the sum of $847.68 based on a evaluation made by their appraiser. The Claims Bureau upon receipt of this offer reviewed our appraiser's estimate and arrived at a figure of $1,262.50 representing an average market value by taking the wholesale and retail values set forth in the N.A.D.A. Used Car Guide, to which we added our towing costs and gave credit for salvage, making a net claim of $1,175.95. We approached the insurance carrier with this figure who have now offered the sum of $1,011.82 in full settlement of our claim. The insurance carrier made available their appraisal from C. M. Croft Company which was reviewed by our own appraiser, Edward W. Jack. It was Mr. Jack's personal opinion that we would be justified in accepting their offer as it would cost us more than the difference involved to pursue the matter in court for a full recovery.

It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman that the offer of settlement in the amount of $1,011.82 receive favorable consideration and be approved. (May 27, 1971)

Route 287, Sections 4E & 5J

22 [illegible] Construction Company, Inc., [illegible] Route Seventeen, [illegible], New Jersey, 07652, completed all work under their contract for Route 78, Section 4K and Route 287, Sections 4E & 5J, Federal Project Numbers [illegible]-78-4(6)37 and [illegible]-287-1(31)19, on November 30, 1967.

This project has been Final Inspected and was found satisfactory for Final Acceptance.

[illegible] section, dated December 13, 1968, it was recommended that this project be final accepted and final payment be authorized based upon the as-built quantities, deducting the sum of [illegible], representing Liquidated Damages for 72 working days at [illegible] per day for the period of June 30, 1967 through November 10, 1967, inclusive.

This section was found in error, Liquidated Damages assessed was short by one (1) working day.

Subsequently, the Department Claims Committee after review of claim submitted by the contractor, granted an extension of time of 1 working days, which the committee felt was justifiable.

Whereupon the Claims Committee granted a supplement payment of $2,796.[illegible] for construction of Interchange Type "B". It is understood to be in addition to previous authorized payments in connection therewith.

Therefore, it is now recommended that the prior commission action be rescinded and the following substituted.

It is now recommended that this project be Final Accepted and Final Payment be Authorized, based on As-Built Quantities, adding the above supplement sum of $2,506.50 and deducting therefrom the sum of $3,040.00, representing Liquidated Damages for 32 working days at $20.00 per working day.

This final payment to the contractor shall be in the amount of $19,396.70. (May 25, 1971)

Pt. Pleasant Beach Borough, Ocean County

Approval is hereby requested for detours of Bridge Avenue traffic due to construction of a new Route 13 Bridge over the Point Pleasant Canal in the Borough of Point Pleasant as follows:

Beginning on or about May 24, 1971, eastbound Bridge Avenue traffic will make a right turn onto Rue-Rivoli Avenue, a left turn onto Beach Boulevard, and a left turn at a newly constructed connector street, which will bring them back to Bridge Avenue. Westbound Bridge Avenue traffic will use the same detour roads but in reverse of that previously described. This detour will be in effect for a period of approximately 3 weeks.

At the end of the 3 week period a second phase detour will be established causing eastbound Bridge Avenue traffic to make a right turn onto Rue-Lido, a left turn onto Beach Boulevard, and a left turn at the connector street, bringing them back to Bridge Avenue. Westbound traffic will use the same detour but in a reverse direction. This detour will be in effect for approximately 6 months.

Proper local officials have been made aware of the necessity for the detour and are in agreement with it.

At the conclusion of the detour it is possible that the detour road will have to be completely overlaid, therefore, the Maintenance Division estimates the cost of maintaining the detour to be $2,500.

93 There is again presented the matter of an owner's replacement housing bonus on Route 78, Section 5F, Project # I-78-5-(5), from Lyons Avenue to Schuyler Avenue, Parcel 68, former owner, Theodore Bulwin, widower.

Authority was previously given on September 23, 1970 to pay a replacement housing bonus in the amount of $1,600 to Mr. Bulwin. It was learned that although Mr. Bulwin purchased a replacement house, title to said dwelling was placed in the son's name. From a legal aspect, since title was not in the name of the former owner, he should not have received a replacement housing bonus, but rather an owners rental bonus payment supplement. An owners rental bonus was computed in the maximum amount of $1,500 which now required the return from the owner of $100 in excess payment. This money has been received from Mr. Bulwin.

Authority is requested to recind the Commission Action dated September 23, 1970 approving the replacement housing bonus in the amount of $1,600. Further authorization is requested to accept return of the excess payment of $100 and deposit same into the State Treasury under the proper appropriation account number. (May 27, 1971)

Right of Way

55 There is presented the matter of final vouchering Federal-aid Right of Way reimbursements covering the years 1956 to 1963.

From time to time on various parcels or projects Federal regulations have placed certain minor acquisition costs in non-participating categories. All items in these categories have since been individually reviewed with the Federal Bureau and/or the State's Legal Department and the non-participating categories have now been billed to the Federal Bureau to the maximum, leaving for the subject six year period a balance of $393,898.60 remaining non-participating.

As it would be uneconomical to take further individual legal or other action in an attempt to secure further Federal participation, it is recommended, in the overall public interest and for accounting purposes, that it formally be agreed that the subject amount which is indicated by Route, Section, Project and Parcel on the attached Schedule "A" is non-participating and that no further appeals be taken; therefore, permitting the concerned projects to be final vouchered. Claims - Settlement

1 The Department of Transportation is carrying a claim against Richard L. Edwards in the amount of $167.54 covering the cost of repairing wooden barricades damaged as the result of an accident involving a vehicle owned and operated by Mr. Edwards on June 22, 1970. The insurance company in settling our claim with the Claims Bureau forwarded a check in the amount of $134.04 which reflects a 20% depreciation on the damaged barricades.

The offer of settlement was discussed with counsel assigned to the Department of Transportation who is of the opinion that the offer is reasonable as the amount involved, alter allowing for depreciation, would not justify the expenditure of additional time and effort. The insurance carrier is legally entitled to depreciation for a five year old barricade and in view of counsel's opinion, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman, that it receive favorable consideration and be approved. (June 14, 1971)

Claims - Settlement

5 The Department of Transportation is carrying a claim against Robert P. Epperson arising out of an accident occurring on August 27, 1970 resulting in damage to Department vehicle bearing Reg. TD 896.

This accident involved three vehicles, the Department of Transportation vehicle being the second in line. The insurance carrier for the third vehicle in line was willing to settle for our rear end damage only, as their assured claims the Department of Transportation's vehicle struck Vehicle One prior to it having been struck by Vehicle Three.

The Department's claim arising out of this accident amounts to $388.81. This figure was arrived at by taking the market value of the vehicle at the time of the accident, allowing $346.00 the amount received by the State when the vehicle was sold at public auction, to which towing charges of $34.81 were added. During settlement negotiations by the Claims Bureau, the insurance carrier has now agreed to offer the sum of $271.29 in full settlement of the Department's claim.

After reviewing our file, Deputy Attorney General Fitzpatrick is of the opinion that the offer of $271.29 represents a good settlement and should be accepted. Our attorney further pointed out that if this case was actually tried, it would be a matter of whom the court would believe as to who was responsible for the front end damage sustained by the Department's vehicle.

Giving due consideration to the cost involved in the event suit was instituted in order to collect the full amount of our claim and also considering the foregoing, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Beiderman, that the offer of settlement receive favorable consideration and be approved.
(June 14, 1971)

Claims - Settlement

6 The Department of Transportation is carrying two claims against the Red Star Towing Company in the total amount of $71,706.00 arising out of accidents occurring at the Wittpenn Bridge and the Hackensack River 1 & 9 Truck Bridge. When the repairs were completed, the Claims Bureau presented bills totaling $71,706.00 to Red Star for payment. On March 9 an offer was made by Red Star in the amount of $46,000 in full settlement of these two claims as Red Star wished to settle them as a package deal.

During our settlement negotiations Red Star stated they felt there was a serious question of liability with reference to the Wittpenn Bridge accident and resulting damage. They claim their surveyors detected that the pilings, etc. were pushed upstream and at the time of the accident their vessels were going downstream. They also pointed out that both sides of the fender system were damaged. Red Star feels that inasmuch as there is a constant stream of boats going up and down the river, that this fender system is constantly being hit and that they were paying for damages caused by other vessels which were not detected by our bridge personnel.

This offer was discussed at great length with officials of the Department of Transportation who suggested that we attempt to settle the claims for $60,000. A subsequent meeting was held with the Red Star adjuster at which time the $60,000 figure was suggested. It was pointed out by Red Star during this meeting that the State made repairs to the fender system not connected with this accident which amounted to approximately $15,000. The towing company pointed out that this was good business on the part of the State to make these repairs when the necessary heavy duty equipment was at the site making repairs due to the accident. However, they did feel that the entire charge for this equipment should not be billed to Red Star, that the State should share in the cost of the heavy duty equipment. They also felt that a reasonable allowance toward depreciation should be made by the State, especially in connection with the damage sustained by the fender system at the Hackensack River Bridge which was the original fender system installed when the bridge was built in 1953.

We then suggested that they meet us half way between their offer of $46,000 and our counter proposal of $60,000 and suggested that these two claims be settled for $53,000. After much discussion and bargaining, Red Star offered $52,000. We stood firm on the $53,000 figure stating that our recommendation would have a better chance of being approved if we could say that Red Star met us half way between their offer and our counter offer. Red Star has now advised that they will settle for $53,000.

It might be pointed out that through an oversight in reporting the accident occurring at the Wittpenn Bridge on July 11, 1968, the first notice the State gave Red Star of the accident and our intention to hold them responsible was not until October 14, 1968. This late notice would definitely be a weak point in our case if we ever attempted to collect these claims through litigation.

The offer of $53,000 has again been discussed with the proper officials of the Department of Transportation, as well as counsel assigned to the Department who feel this is a good and reasonible offer and should receive favorable consideration and be approved. It is therefore the recommendation of this office and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Beiderman that Red Star's offer of $53,000 in full settlement of these two claims be approved. (June 9, 1971)

Concurrent therewith, an executed agreement had been secured in the same amount, said agreement having been approved on the same date. The complaint was filed on May 26, 1970 and there was no deposit made into court. The State's registered fair market value was $7,000.

It is recommended that the commission action dated April 27, 1971, be rescinded and that the executed agreement with the owner, which was approved by the Assistant Commissioner, be accepted and paid.

There is presented the matter of the Commissioners' award in the condemnation of property on Route 35, Section 6, Parcel 82, Ocean Township, Monmouth County, owned by William D. and Alice Oraham, husband and wife.

The complaint was filed April 2, 1970. This is a partial taking of an improved rectangular tract of 100 FF on Route 35 and a depth of 17', an area of 1,700 SF; a slope easement along entire frontage 100' x 1', an area of 100 SF; together with site improvements including black-top paving and sign used in connection with retail fabric business operated by owners on the premises.

The fair market value was re-registered on May 27, 1970, in the sum of $7,900.00. The owners' expert testified to a fair market value of $13,855.00 for the entire taking. The State's expert put a value of $7,900.00 for the taking.

The Commissioners made an award of $9,350.00. A deposit of $7,900.00 was paid into Court on November 24, 1970.

It is recommended that the award of $9,350.00 be approved as beingfair and reasonable, and an amount not substantially excessive of the fair market value of $7,900.00. If an appeal were filed, a jury could reasonably render a verdict in an amount much greater than this award. It is recommended that payment of the award of $9,350.00 would be in the public interest; and that payment of $1,450.00, the sum above the deposit of $7,900.00 be paid, together with lawful interest as computed by the Bureau of Titles.

No appeal is recommended. (June 14, 1971)

92 There is presented herein the matter of the commission award entered against the State in the condemnation of property located on Route 36, Section 2, Parcel E138, in the Township of Middletown, owned by Edward E. Bennett and Harriet Bennett, his wife.

At the hearing before commissioners, the owners offered testimony in the amount of $30,000 as of April 2, 1965, the date of the State's entry. The State presented testimony in the amount of $11,250 being the amount of the State's fair market value. A deposit was paid into court on February 14, 1967 in the amount of $10,000. The commissioners' award is in the amount of $25,000. The owner has filed an appeal and the State is filing a protective appeal.

It is recommended that the protective appeal be approved. However, in view of the fact that our file indicates a great difference in the amounts of the State's appraisals, it is further recommended that an effort be made to settle this case at a figure considerably in excess of our witness's appraisal. Agreement
Jeryl Industries, Inc.

It is recommended that the attached agreement be executed by the Commissioner of Transportation. The agreement would waive the Department's right to take a 90 foot strip of property without the payment of the constitutional mandate of fair compensation. This existing state of facts is based upon the Department's reservation of right in the State's riparian grant of the property.

Deputy Attorney General Vail, Chief Counsel for State Riparian Claims, has advised that the State cannot meet its burden of proof in asserting its claim to the property. The property owners' attorney, Harry L. Sears, Esquire, has agreed to admit the State's riparian grant and forebear the filing of a suit to quiet title if the State will agree to a 20-year moratorium on its claim. Mr. Sears is making this concession so that his client may effect the sale of the property. The matter has been reviewed by the Executive Director of the Department of Transportation, Fred C. DePhillips, and he concurs in said recommendation. Funds have neither been requested nor obtained for putting a State road over the 90-foot strip of property involved. Such a road is therefore only a possibility at this time.

Under these circumstances, the agreement is fair and equitable.

61 There is presented the matter of a Dwelling Lease Occupancy Agreement for an apartment located on Route 20F, Section 2, from Route U. S. 46 Interchange to Main Street, Parcel 329.

Authority is requested to rent the subject apartment to Peter and Margaret LaBrie for a rental of $40 per month based upon the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account # 20F-2-329-1.

This rent is based on an analysis of rentals in the present market for comparable apartments. It is a reduction from the tenants previous monthly rent of $88 since they will act as superintendents of the building. Also taken into consideration in establishing the rent was the fact that this apartment was previously furnished by the former owner. However, the owner abandoned all personal property to the tenants for their use. It was necessary to reevaluate the rent paid by the tenants based on unfurnished apartments rather than furnished apartments. It is our opinion that the monthly rent established based on the reevaluation of the apartments is fair and reasonable.

Authority is also requested to close title subject to the lease occupancy. (June 28, 1971)

Condemnation proceedings were previously authorized on May 18, 1970, at which time the owner demanded that State install a sleeve under the proposed highway at State's expense, which demand was considered excessive.

During negotiations the owner requested that the State provide for a pipe sleeve to be included in the construction plans and that the owner agreed to deduct the cost as part consideration. Our engineers estimated the cost of this pipe sleeve to be $5,000. and agreed to revise the construction plans to include this sleeve if the agreement provided for same.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel 15	Lawrence Hose Company (a New Jersey Corp.)	Consideration	$70,700.
	Less an allowance to the State for the construction of the pipe sleeve by the State		$ 5,000.
		Net Consideration	$65,700.

The parcel has been appraised and the Reviewer's registered Fair Market Value Determination is $68,500, the estimated cost of the sleeve by the engineer's is $5,000. The variance not being substantial, the agreement would appear in the public interest and approval is recommended.

It is recommended that condemnation proceedings previously authorized be discontinued. No deposit having been made into Superior Court, no request for withdrawal is necessary. (June 28, 1971)

There is presented the matter of a Dwelling Lease Occupancy Agreement for an apartment located on Route 78, Section 5E, Project # I-78-5-(4), from Garden State Parkway to Lyons Avenue, Parcel 171.

The Parks family lived at 231 Leslie Street, Newark, New Jersey, Rent Account Number 78-5F-137-1. This Lease Agreement was previously authorized by the Commissioner of Transportation on November 17, 1969.

The Parks family lived on the second floor of a two family house. It was necessary to move the family on an emergency basis since the first floor was being vandalized and complaints were received that children were playing with matches creating a possible fire hazard. The Parks family was moved to 1567 Fabyan Place, Hillside, New Jersey which is currently being leased by the State.

Authority is requested to rent the subject apartment to Olden and Shelly Parks for a rental of $120 per month based upon the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account # 78-5E-171-4. The rent charged is based on an analysis of rentals in the present market for comparable apartments and is an increase from the tenants previous rent of $100 per month since their new residence is in a better area calling for a higher economic rent. It is our opinion that this monthly rental is fair and reasonable.(July 6, 1971)

The rent to be charged is based on an analysis of rentals in the present market for comparable units and is a reduction from the tenant's previous monthly rental of $60.00 per month since the tenant's will act as superintendents of the building. It is our opinion that this monthly rental is fair and reasonable.

Authority is requested to rent the subject dwelling to Alfred and Rosetta Williams for a rental of $100.00 per month based upon the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account # 78-5G-529-1.

This dwelling is a single family owner occupied structure which has not been previously rented. Due to the lack of comparable rentals, the rent was established by using a rental factor of 10% of the acquisition price, which was $15,500. Also taken into consideration in establishing the rent was the fact that the tenants will provide their own heat and hot water and will maintain the premises in a decent, safe and sanitary condition. 74 There is presented the matter of condemnation of property on Route 3, Section 4, from Pleasant Avenue to Eighth Street, North Bergen Motel Corp.. On June 11, 1971 Theodore Trautwein, Judge of Superior Court, State of New Jersey, ordered that within 60 days the State of New Jersey institute suit for the taking by eminent domain of property owned by said North Bergen Motel Corp..

This is an area previously indicated as owned by the Department of Environmental Protection (formerly known as Department of Conservation and Economic Development) and for which reason the Legal Division had ruled that we did not have to condemn. A "grey map" drawn by the Department of Environmental Protection has now resulted in a Court Order requiring the State to file a complaint in condemnation and make the owner an immediate offer.

It is, therefore, requested that authority be granted to place a condemnation complaint on file immediately subject to any public utilities existing in the premises with the understanding that after appraisals have been received and the Fair Market Value registered, negotiations in their regular manner will be conducted in an effort to reach an amicable settlement. If no settlement can be reached, then authority is requested to deposit with the Clerk of Superior Court an amount equal to the registered Fair Market Value. (July 6, 1971)

75 There is presented again the matter of acquisition of property on Route 15 Freeway, Section 8, Shawnee Drain to Morris-Sussex County Line, Parcel 15, John J. Bodner, Jr. and Anne, his wife. Condemnation proceedings were authorized on March 23, 1970, and a complaint was filed on July 29, 1970.

Subsequently, the appraisals have been updated to the date of complaint which resulted in the Fair Market Value being re-registered in the sum of $2,550., which was offered to and refused by the owner who demanded $7,500., which is considered excessive. Authority is, therefore, requested to deposit an additional $1,000. with the Superior Court which when combined with the $1,550. previously authorized for deposit will make a total authorization of $2,550.

There has been no court deposit as possession has not been required.

Condemnation proceedings were authorized for this parcel on February 5, 1970 and a complaint was filed on July 15, 1970.

Subsequently, the appraisals have been updated to the date of complaint which resulted in the Fair Market Value being re-registered in the sum of $1,550. which was offered to and refused by the owners who demanded $2,000. Authority is requested to deposit an additional $750. with the Superior Court which when combined with the $800. previously authorized for deposit will make a total authorization of $1,550., which represents the re-registered Fair Market Value Determination.

There has been no court deposit to date as possession has not been required.

77 There is presented the matter of moving cost reimbursement for the occupant Bergen Auto Company located on Route 17, Section 4, from Ridge Road to Route U. S. 46, Parcel R36A & 2R36B.

The occupant submitted estimates for the removal of signs which were considered to be personal property of the owner. In reviewing the estimates, it was noted that there was a lack of itemization concerning the move as well as certain questionable items involved in relocating the signs. The owner was informed that the estimates could not be approved until they were revised and the questionable items removed.

Prior to the submission of the estimates, the owner signed a Right of Entry Permit with the State allowing the contractor to enter the property to expedite construction. The Resident Engineer requested the owner to remove the signs prior to our written authorization and in the spirit of cooperation, the owner completed his relocation. Although the move was made prior to the submission of revised estimates and our written authorization to proceed with the relocation, it is felt that the owner should not be denied his moving reimbursement since he was cooperating with the State in allowing the contractor to complete his work.

Authority is requested to pay the amount of $1,659 to Bergen Auto Company as reimbursement for their actual cost in relocating their signs. (July 8, 1971)

78 There is presented again the matter of acquisition of property on Route 17, Section 5, Federal Project U-102-(18), Ridgewood Avenue to Allendale Avenue, Parcel 68B, Max Stark and Miriam Stark, h/w. Condemnation proceedings were previously authorized for the acquisition of this parcel on August 7, 1970.

Subsequently, the engineers revised the parcel now designated as Parcel 68C. This revised parcel has been appraised and the Reviewer's registered fair market value determination is $81,400. Re-negotiations were conducted with the owner's agent who rejected the fair market value offer and demanded $115,000., which is considered excessive.

It is therefore recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 68C, in fee simple subject to any public utilities existing in the premises.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $81,400.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel 68C in the place and instead of those previously filed. (July 8, 1971)

At the hearing before the Commissioners held on June 10, 1970, the owner offered no testimony and the State offered no testimony but informed the Commissioners that the State's fair market value was in the sum of $2,500.00, which sum had been deposited into Court on June 17, 1968.

135 There is presented again the matter of the appeal from the condemnation award against the land on Route 73, Section 6, Parcel 1 in The Township of Winslow, in the County of Camden, owned by Shirbet Co., Inc.

On June 12, 1967 an appraisal was submitted that, in the appraiser's opinion the fair market value was in the sum of $1600.00 and on November 14, 1967 the fair market value was registered in the sum of $2500.00.

Prior to the trial of the matter the appraiser died and a new appraisal was submitted on June 5, 1969 that the value was in the sum of $3925.00. On September 9, 1969 the appraisal was revised in which it was the considered opinion that the land was worth $3300.00, and on September 26, 1969 the appraisal was again revised that reflected the opinion that the land was worth $2500.00.

The sum of $2500.00 was deposited as the fair market value on June 17, 1968.

The Commissioners having made an award of $5200.00 an appeal was taken and at the time of the trial a consent judgment was entered in the sum of $3900.00.

In view of the fact that the consent judgment was less than the original appraisal of the expert who would testify in Court, and this is a partial taking, it is my considered opinion that the judgment is in the best interest of the State.

Having reviewed the appraisals and the testimony of the State's expert, it is my opinion that the jury may have awarded a sum in excess of the Commissioners' award.

It is therefore recommended that the judgment in the sum of $3900.00 be approved and that payment be made of the sum of $1400.00 which is the amount in excess of the $2500.00 deposited into Court, together with interest at 6% on such excess from June 17, 1968.

The above entitled matter was appealed by the Department of Transportation from an Order of the trial court denying a setoff against the condemnation award to the extent of the rents, issues, and profits collected by the property owner after the Department of Transportation made a deposit into Court. The Order of denial was affirmed by the Appellate Division for the reasons set forth in the attached opinion. Complaint was filed on June 26, 1968. Registered fair market value was $25,000.00. A Declaration of Taking and Deposit into Court of the $25,000.00 was made on June 26, 1968. The Report of the Commissioners in the sum of $30,000.00 was filed on August 7, 1969. By Order of January 14, 1970, the Court denied the Department of Transportation's application for a setoff for rents and abated the sum of $375.62 as interest on that amount of the condemnation award over and above the amount deposited into Court.

It is further recommended that no further appeal to the Supreme Court be taken. It is further recommended that the $5,000.00 excess award heretofore withheld from the defendants be paid to the defendants together with interest on the $5,000.00 from January 14, 1970, the date of the denial of our application for the setoff, to the date of payment of the $5,000.00 excess. **(June 28, 1971)**

Claims - Settlement

7 ⌐ The Department of Transportation has presented a bill to Mary L. Thompson in the amount of $235.69 covering the cost of repairing guard railing damaged as ⌐the result of an accident occurring on May 5, 1970, involving a vehicle owned and operated by Mary L. Thompson. The insurance carrier for the debtor felt that they were entitled to a depreciation allowance contending that the guard rails were in a state of decay prior to the accident and were at least thirty to thirty-five years old. The carrier offered the sum of $166.50 in full settlement of the Department's claim.

The insurance company's offer was discussed with counsel assigned to the Department of Transportation who felt the insurance carrier was entitled to an allowance for betterment. Subsequent negotiations by the Claims Bureau resulted in the insurance company agreeing to increase their offer to $188.56.

In view of counsel's prior approval and the insurance company's agreement to increase their offer in accordance with our request, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Beiderman that the offer of $188.56 be accepted in full settlement of this claim. (July 12. 1971)

Claims - Settlement

8 The Department of Transportation is carrying a claim in the amount of $118.77 against Stephan A. Smith, et als, arising out of an accident occurring on May 27, 1967. On the date in question, two vehicles collided requiring the Department to use maintenance forces to clean up cement spilled on the travelled portion of Route 24. This case involved a fatality and has been pending in court since the accident.

We have recently been advised that the pending litigation has been settled without trial and the insurance company for the other party involved has offered 50% of the State's claim. In view of the age of the claim, as well as the fact that one of the parties is now deceased, the Claims Bureau has advised the insurance company, in order to avoid litigation, that we would accept the sum of $75.00.

We are now in receipt of a check for $75.00 and for the reason set forth above and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Beiderman, it is our recommendation that it be accepted in full settlement of the Department's claim.

33 Under Agreement (PUA-1-174-1A), Transcontinental Gas Pipe Line Corporation was authorized to relocate its existing pipeline facilities to accommodate the construction of Route 174 (Freeway), Section 1A, in the Township of Lawrence, County of Mercer, at an estimated cost (including contingencies) of $65,900.00.

The Company proceeded with the construction work during the past winter, as requested by the State and encountered an impassable obstruction at proposed crossing with existing dual sewer mains, which necessitated pipeline design revision creating considerable additional work at actual cost of $7,382.46. Furthermore, the Company was forced to suspend making its tie-in connections due to prevailing low atmospheric temperatures when gas supply to customer could not be severed, which necessitated resumption of work under more favorable conditions at extra work cost of $1,350.00 for one tie-in connection at State expense.

A Change Order authorizing the inclusion of the above extra work under the Agreement is to be processed. It is recommended that the combined total extra work cost charges of $8,732.46 be set-up so that the Change Order may indicate the revised estimated cost of $67,745.28 being approved for reimbursement to Transcontinental Gas Pipe Line Corporation under the Agreement. To date, actual cost billing submitted by the City for inspection work amounts to $2,701.28, which represents an increase in cost of $928.08 over the funds set-up in the Agreement. This increase cost is due to underestimation by the City of work involved.

In order to permit payment of bills submitted by the City for the additional cost involved, it is recommended that the addition cost amount of $928.08 be set-up, making a revised estimated total cost of $2,701.28 to be expended for reimbursement to the City of Perth Amboy for inspection services under the Agreement. This is a partial taking and slope easement of improved property. At the hearing before the Commissioners, the owner's witness testified to the value of the entire tract in the sum of $85,000.00, the loss of six to eight parking spaces in damaging the remainder. The State's expert testified to a fair market value of $2,700.00 for the partial taking and slope easement.

The Commissioners made an award in the sum of $2,700.00.

Since the award is equal to the State's fair market value it is recommended that the award of $2,700.00 be approved for payment; and that the sum of $400.00, being the amount over and above the deposit paid into Court, be paid, together with lawful interest as computed by the Bureau of Titles. No appeal is recommended. (July 12, 1971)

Right of Way
Route 78, Section 5H

116 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 78, Section 5H, Parcels R18A and 18B owned by Julius Stulman, et al.

At the hearing held on January 27, 1971 and June 28, 1971, the property owner offered testimony in the amount of $746,000. The State presented testimony in the amount of $385,000. The Complaint was filed on March 1, 1967 and a deposit was made into Court on May 1, 1967 in the amount of $175,100. and a deposit was made into Court on August 29, 1969 in the amount of $209,900., making a total deposit of $385,000. Fair Market Value was registered in the amount of $385,000. Commissioners returned an award in the amount of $530,000.

The State was represented by Fee Attorney Edward D. McKirdy.

Since the Commissioners' award in the amount of $530,000., exceeds the State's Fair Market Value by $145,000., it is recommended that the appeal taken be approved. (July 12, 1971)

Right of Way
Route 80, Section 4E

118 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 80, Section 4E, Parcel 180B, owned by Neil Autore; et al.

At the hearing before commissioners, the State offered testimony in the amount of $250. The owners did not have an expert present but were permitted to make a statement that they had an appraisal made by Herschel B. Davis of Pompton Lakes in the amount of $1,620. His appraisal was submitted to the commissioners.

The Complaint was filed on February 1, 1968. A Declaration of Taking was filed on February 1, 1968 in the amount of $250.

The commissioners rendered an award of $800. It is recommended that the Commissioner approve the award as it does not vary substantially from the registered Fair Market Value.

It is my understanding that administrative authority had been granted by the District Supervisor to settle this case up to $800 but a title problem precluded a settlement of this matter by agreement. (July 12, 1971)

Right of Way
Route 295, Section 5

119 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route 295 (1953), Section 5, Parcel 40 owned by the Church Brick Company, a New Jersey Corporation.

However, on July 16, 1970, Julia Watson died prior to the execution of the Deed for these premises. It was also discovered that one of the other owners of this parcel was not single, but was married to his present wife who had not joined in the agreement. Numerous attempts to induce the spouse of the other owner to sign the Deeds of Conveyance have proved futile. Our Title Bureau recommends that condemnation proceedings be instituted and that the agreement and the action of May 6, 1970, be rescinded.

Authority is therefore requested to institute condemnation proceedings for the acquisition of this parcel in fee simple subject to any public utilities existing in the premises.

Prior to the ultimate fixing of compensation, should any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation authority is requested to then file a declaration of taking and to deposit in the Superior Court the sum of $9,100 which represents the registered fair market value. Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $54,300.

Authority is requested to enter upon the owners remaining land to remove that portion of the improvements lying partly within and partly outside of the Right of Way.

91 There is presented herewith the matter of the commission award entered against the State in the condemnation of property located on Route 3, Section 3, Parcel 97, in the Borough of Rutherford, owned by Rutherford Realty Corporation, a Corporation of New Jersey.

The commission hearing took seven full days. The State is taking a portion of a drive-in theater involving both land and equipment. The owner did not present a real estate expert. It contended that drive-in theaters are bought and sold on "operating cost flow." The owner's figures were $1,685,000 and $1,830,000 as testified by the respective witnesses. The State's and the owner's figures as to cost to cure were at considerable variance. The State's value theory was that the land was too valuable for use as a drive-in theater. The State's figure for the taking was $677,000. There were many legal questions raised. The commission award was $1,062,000. The State filed an appeal.

It is recommended that the appeal heretofore taken be approved. If the Department is to contend that the land is too valuable for drive-in theater use, it is recommended that an expert in that field of economics be retained. (July 15, 1971)

Route 78, Section 5B

105 There is presented here the matter of the amendment of the Complaint in the condemnation of property on Route 78, Section 5B, Parcels 41A & 41B, owned by Armand Fernand.

The taking set forth in the original Complaint filed in this matter consisted, among other items, of a denial of access across the entire front of the property. In spite of this denial of access, the State constructed a driveway cut in the no access area. In reliance upon the construction of the driveway cut and assurances that access would be denied on both sides of the cut, the owner constructed a cement block fence along the entire front of his property. Subsequently, the Federal Bureau of Public Roads informed the Department that it would not participate in the acquisition of this parcel because access had been denied to a greater extent than necessary. In order to resolve the access problem, it is necessary for the State to amend its Complaint. A motion to do so was denied by the Court in its descretion.

The property owner will consent to an amendment, however, if the State will increase its FMV in the amount of $6,502. This amount represents the damages to the property resulting from the State's denial of access.

It is therefore recommended that the Fair Market Value be increased by $6,502. (July 19, 1971)

106 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $56,000. in the condemnation of property on Route 78, Section 5E, Parcel 101, owned by Ida Solomon, et als.

The above entitled matter was scheduled for trial on May 24, 1971. After consultation with David A. Biederman, Chief Counsel to the Commissioner, it was agreed that a settlement in the amount of $55,000., inclusive of interest, would be most favorable to the State. Accordingly, this matter was settled with the property owner in the amount of $55,000., including interest. Complaint was filed on October 10, 1969, and no deposit was made into Court. Fair Market Value was registered in the amount of $47,000.

The State was represented by Fee Attorney Max Spinrad.

It is, therefore, recommended that payment be made on the consent judgment in the amount of $55,000. together with interest as stipulated in the judgment. (July 19, 1971)

Route 78 & 24, Sections 5D & 13

107 There is again presented herewith the matter of the consent judgment entered in the condemnation of property on Routes 78 & 24, Sections 5D & 13, Parcels 2R20, 8A, etc., in the Townships of Springfield and Union, in Union County, owned by Villa Contracting Co., Inc.

In the prior commission action, due to a mistake in subtraction, the balance due on the judgment was set forth as $994,603.50. The judgment is in the amount of $2,697,000. Two deposits were made, one in the amount of $1,559,800 and the other in the amount of $158,200, making a total of $1,718,000. Deducting the clerk's charges for commissions of $15,703.50 leaves a net amount of $1,702,296.50. This would leave a net balance of $994,703.50 instead of $994,603.50 as shown on the prior commission action.

It is recommended that in addition to the invoice for $994,603.50 there be an additional invoice in the sum of $100 to cover the subtraction error. (July 15, 1971)

105 There is presented here the matter of the settlement and entry of a consent Judgment at trial on Route 80, Section 4E, Parcels R100A & 100C owned by Passaic County Brick Yard, Inc., a corporation of New Jersey; et al.

The Complaint in this matter was filed on July 25, 1965 and a Declaration of Taking and Deposit in the amount of $327,000.00 was made on the same date.

This matter was on appeal from a Report of Commissioners in the amount of $859,000. This project contemplates the construction of an access road to alleviate the landlocking of 23.875 acres by reason of the construction of Route 80, which access road has not to date been built and the same is presently in litigation. The property owners called two real estate experts who testified to a value of $1,262,500.00 and $1,141,900.00 . The states testimony contemplated the access road and would have been in the amount of $378,400.00. The Judgment as entered was in the amount of $620,500.00 including any and all interest due to May 25, 1971 of which the state has already paid into the Court the sum of $327,000.00. The Judgment provides alternatively for the acquisition of the remaining 23,875 acres at a price of $720,000.00 or in the alternative quarterly payments of $19,200.00 until such time as the access road is constructed which time is not to extend beyond two years.

It is herewith recommended that the consent Judgment be paid in accordance with its terms and further that the terms of the Judgment be complied with. In the alternative, in accordance with the present pending litigation as pertaining to the access road. (July 22, 1971)

It is recommended that the commission award in the amount of $3,350 be approved as it equaled the State's registered fair market value. (July 15, 1971)

It is recommended that this portion of the General Property Parcel Map be approved, subject to such changes as may be necessary in order to conform with the construction plans as finally adopted and approved. The total estimated cost of right of way required for the construction contract on Route 1, Section 6F and Route 1, Section 8E is $2,000,000.00. The funds provided by this action which is in accordance with the attached Processing Form received from the engineers covers only a stage of the entire construction. This set up is being made with the understanding that if the balance of the construction is to be performed and right of way required, then the balance of the estimated cost in the sum of $1,275,000.00 will be required to complete the project. Route 20 Freeway, Section 3

66 There is presented again the matter of funding on Route 20 Freeway, Section 3, Main Street to Maple Avenue, Control Section 1614-401.

Heretofore, this project was partially financed with $1,500,000.00 of Bond Funds made available from the 1969 Construction Program, with the understanding that the balance of the estimated cost in the sum of $12,500,000.00 would be made available when requested and/or needed by Right of Way.

Originally, the proposed 1971 Bond Fund Program contained $3,000,000.00 for the acquisition of right of way on this project. Due to the resolution of the established national Falls historic site and community accord, all acquisitions north of Market Street in Paterson have been temporarily discontinued. The $3,000,000.00 allocation for this project was deleted from the 1971 Bond Fund Program.

Right of Way has approximately $1,000,000.00 obligated and is without funds. Therefore, authority is requested to set up the sum of $1,000,000.00 from funds available under Item 61, advance acquisition statewide, of the 1971 Bond Fund Construction Program. (July 27, 1971)

Parcel 13 — Max Drill, Inc. — Consideration $15,950.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $14,700. The variance not being substantial, the agreement would appear to be in the best public interest. Approval is recommended.

There has been no court deposit.

It is also recommended that condemnation proceedings previously authorized be discontinued.

It is further recommended that authority be granted to dispose of the improvements to the road contractor, by public auction or sealed bids. (July 26, 1971)

Route 78, Section 5G

94 There is presented again the matter of acquisition of property on Route 78, Section 5G, Federal Aid Project I-78-4-(6), Schuyler Avenue to Elizabeth Avenue. Condemnation proceedings were previously authorized as the owners would not state a demand. On October 16, 1970, a commission hearing was held and an award was rendered in the amount of $220,000. for Parcels 1019, 1021, and 1022 which was appealed by the State.

Prior to a jury trial, the owners' attorney indicated to our trial attorney that the owners would accept a package settlement in the sum of $192,500. for the three cases which the Legal and Right of Way Divisions concurred in as the settlement is substantially below the commission award of $220,000. and that it was the opinion of the trial attorney that a verdict could not be achieved under this settlement figure.

Continued negotiations have resulted in the execution of three separate agreements as follows:

Parcel 1019 — Minna R. Handleman, Benjamin A. Ringel and Henry A. Ramey as Executors of the Estate of Max Ringel, deceased; Minna Handleman, widow; Benjamin A. Ringel & Corinne Ringel, h/w; Herbert Ringel & Lorraine Ringel, h/w; Bess Ringel, widow; Lucille Ringel, single; Mildred E. Rowen & Herbert Rowen, h/h; Lucille Ringel & Mildred E. Rowen as Executors and Trustees of Estate of Herman Ringel, deceased, all trading as Ringel Brothers, a co-partnership. — Consideration $12,500.

Parcel 1021 — Consideration $ 15,000

Parcel 1022 — Consideration 165,000

Including a down payment of $41,250.

Total Consideration $192,500

These parcels have been appraised and the combined Reviewer's registered Fair Market Value Determination is $166,200. Considering that this is a package settlement the variance is not considered substantial and the agreement would appear to be in the public interest, approval is recommended.

It is recommended that condemnation proceedings previously authorized on December 23, 1968, be rescinded.

Upon taking of possession authority is requested to dispose of the improvements to the road contractor by public auction or sealed bids. (July 29, 1971)

99 There is again presented the matter of a Dwelling Lease Occupancy Agreement for an apartment located on Route 20 Freeway, Section 2, from Route U.S. 46 Interchange to Main Street, Parcel 329.

Authority was previously granted to rent the subject apartment to George Scoullas for a rental of $75.00 per month based on the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account # 20F-2-329-4.

Subsequently, it was determined that the rental was inconsistent with other rentals of comparable properties in the area and a new lease has now been executed in the amount of $100.00 per month.

The rent charged is based on a reanalysis of rentals in the present market for comparable apartments and it is our opinion that this monthly rental is fair and reasonable.

Authority is requested to rent the subject apartment to George Scoullas for a rental of $100.00 per month based on the terms and conditions set forth in the Dwelling Lease Occupancy Agreement, Rent Account # 20F-2-329-4 and that the previous action of June 28, 1971 be rescinded. (July 26, 1971)

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R27B in the place and instead of those previously filed. 128 There is presented here the matter of the commission award entered against the State in the condemnation of property located at Rt. 35, Sec. 6, Par. 48, owned by Robert J. Furlong; et al.,

The owner took the witness stand in his own behalf. He testified that in his opinion the value of the land taken, together with damages, amounted to $50,000.00. The owner's attorney refused to present their expert witness, therefore the State would not present their appraiser. The State's Fair Market Value is $10,200.00.

The Complaint was filed on April 6, 1970. The Declaration of Taking was filed on November 25, 1970. A deposit of $10,200.00 was made on November 25, 1970.

The commissioners rendered an award of $16,500.00 which is considered excessive and an appeal has been filed by the State and a cross-appeal by the defendant. (July 26, 1971)

129 There is presented here the matter of the commission award entered against the State in the condemnation of property on Route U.S. 46, Section 3, Parcels LR9B & LR9C1 owned by James E. Doyle.

At the hearing before the commissioners the State offered testimony in the amount of $2,500 which was the registered fair market value. The property owner testified to a value for the taking plus damages in the amount of $34,000. Complaint was filed in this matter on April 27, 1970. There has been no deposit with the court. The report of commissioners was in the amount of $3,400.

It is, therefore, recommended that the commissioners' award in the sum of $3,400 be approved and that payment be made together with lawful interest, if any, as computed by the Title Bureau. The cost in terms of time and fees dictates that no appeal be taken. (July 29, 1971)

The State was represented by Fee Attorney Lewis L. Krieger.

Since the Commissioners' award in the amount of $7,500. exceeds the State's Fair Market Value by $3,500. it is recommended that the appeal taken be approved. (July 23, 1971)

132 There is presented herewith the matter of the Judgment entered against the State in the condemnation of property on Route 80, Section 5K, Parcel E14, in the Township of South Hackensack, County of Bergen, owned by the Township of South Hackensack.

At the trial the owner's witnesses presented testimony in the amount of $30,000 and in the amount of $20,900. The State's witness presented testimony in the amount of $2,065. It is recommended that judgment in the sum of $15,077.95, together with interest as calculated by the Bureau of Titles be paid. (July 29, 1971)

Route 206, Section 9

133 There is presented here the matter of the appeal by the State from an award of Commissioners in the amount of $29,500. in the condemnation of property on Route 206, Section 9, Parcel 1, owned by Joseph Petix, et al.

Authority is requested to rent the subject building to New Jersey Metal Polishing Co. for a rental of $190 per month based upon the terms and conditions set forth in the Commercial Lease Occupancy Agreement, Rent Account # 20F-2-292-1.

This building has been occupied by the present tenant for over twenty years. Previously his rent was $100 per month which is considered far below the market. The reason for this low rent is due to his long landlord-tenant relationship. We are increasing the rent to $190 per month based on an analysis of rentals in the local market for comparable buildings and it is our opinion that this monthly rental is fair and reasonable.

Authority is also requested to close title subject to the lease occupancy. (August 4, 1971)

The rent to be charged is based on an analysis of rentals in the local market for comparable buildings. This building is owner occupied and has not been previously rented. Since the State is acquiring the machinery and equipment as a going concern based on an opinion from John F. Cannon, Deputy Attorney General, the rental value of the machinery and equipment is included in the rent to be charged as a reasonable charge for water based on previous volumes. Consideration was also given to the fact that the occupant shall assume the cost of maintenance and repairs of machinery and equipment. It is our opinion that this monthly rental is fair and reasonable.

Authority is also requested to close title subject to the lease occupancy. (August 4, 1971)

The United States Government has now prepared the attached Revocable License for Non-Federal Use, Real Property, which is being submitted for the Commissioner's signature.

Our Legal Division advises that the State is required to accept whatever the United States Government gives and that condemnation proceedings must be rescinded since the State cannot condemn against the United States of America.

61 There is presented again the matter of acquisition of property on Route 21 Freeway, Section 4, Federal Aid Project U-126-(18), from Route 3 to Monroe Street. Condemnation proceedings were previously authorized as the owner rejected the suggested settlement but stated no demand.

On October 15, 1970, a commission hearing was held and an award rendered in the amount of $30,280., which was appealed by the State. Prior to the jury trial the trial attorney recommended a settlement in the amount of $27,000. in which Right of Way concurred and which resulted in the execution of an agreement as follows:

Parcel 2R133A — Board of Education of Passaic — Consideration $27,000. including $22,200. previously withdrawn from Court.

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $19,317. The variance is not considered substantial, as the settlement includes interest and all claims against the State and is a reduction of the commission award of $30,280., the agreement would appear to be in the public interest. Approval is recommended.

Authority is requested to make payment of $4,800., representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the court.

It is also recommended that condemnation proceedings previously authorized be discontinued. (July 29, 1971)

There is presented here the matter of the Jury Verdict in the condemnation of property located on Route 24 Freeway, Section 12, Parcel 46, owned by Carmine P. Errico; et al.,

At the trial before the Court setting with a jury on March 29, 30 and 31, 1971 a verdict was reached in the amount of $65,000.00. The property owner's witness testified to a value for the property of $67,000.00 under the market approach and $71,000.00 under the cost approach. The State's Fair Market Value was in the amount of $55,000.00. The Complaint was filed on November 14, 1967 and the Declaration of Taking was filed on November 14, 1967. A deposit of $55,000.00 was made on November 14, 1967. The property owner relinquished possession on January 1, 1971.
The commission award was in the amount of $55,000.00.

It is recommended that the verdict in the amount of $65,000.00 be approved and that the $10,000.00 excess over the deposit in Court be paid into Court. 90 Right of Way
Route 33 Freeway, Section 1

There is presented the matter of the Commissioners' award in the condemnation of property on Route 33 Freeway, Section 1, Parcel 21, in the Township of Freehold, Monmouth County, owned by Freehold Racing Association, a New Jersey corporation.

The complaint was filed February 25, 1971. This is a partial taking of a vacant rectangular shaped parcel of land on Route 537 containing 305 S.F., together with a slope easement running 250' along Route 537 containing 720 S.F.

The fair market value was re-registered on March 18, 1971, in the sum of $500.00. The owner did not appear and no testimony as to value was offered. The expert for the State put a value of $500.00 on the taking; to wit: $250.00 for the land and $250.00 for the slope easement.

The Commissioners made an award of $500.00. Since the award is equal to the State's fair market value it is recommended that the award be approved for payment.

I do not recommend an appeal. (August 3, 1971)

91 Right of Way
Route 33 Fwy., Section 2

There is presented the matter of the Commissioners' award in the condemnation of property on Route 33 Freeway, Section 2, Parcel 6, in the Township of Freehold, Monmouth County, owned by Ernest Matthews and Rachel Matthews, his wife.

A co-owner, Ernest Matthews, testified that the entire property was valued at $150,000.00 but gave no specific testimony as to the value of the taking. The State's expert testified to a fair market value of $800.00 for the entire taking. The Commissioners made an award of $6,000.00.

Since the award is substantially in excess ($5,200.00) of the State's fair market value of $800.00, it is recommended that an appeal be taken and a protective appeal has been filed. (August 3, 1971)

It is, therefore, recommended that the verdict of the trial court of $4,000 be approved and that payment of the difference between the deposit and the verdict, $1,000, be made. Lawful interest, if any is due, should be computed by the Title Bureau. (July 29, 1971)

Claims - Settlement

5

The Department of Transportation is carrying a claim against Asher Solemani arising out of an accident occurring on August 31, 1967 involving a vehicle owned and operated by said Asher Solemani. As the result of said accident, property of the Department of Transportation was damaged and had to be repaired at a cost of $287.29.

The other vehicle involved in this accident also sustained damage amounting to $1400. This claim was settled by Mr. Solemani's insurance carrier for $700. The insurance company for Mr. Solemani has now offered a similar 50% settlement of the State's claim.

Investigation by the Claims Bureau has disclosed that Mr. Solemani is no longer a resident of the United States and has returned to his native land in the far East. The offer of settlement was discussed with Deputy Attorney General Fitzpatrick who feels that in view of the circumstances, the best interest of the State would be served if we accepted the offer of settlement in view of our inability to serve the apparent responsible party.

In view of the foregoing it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David Beiderman that the offer of $143.65 be accepted in full settlement of the Department's claim. (August 9, 1971)

Utilities - Route 295, Section 1T
Pennsville Township Water Department

Executed Agreement (PUA-113-295-1T) dated October 6, 1969, covered conditions whereby the necessary known relocations of Pennsville Township Water facilities were to be performed under the State's construction contract, to accommodate the construction of Freeway Interstate 295, Section 1T, located in the Township of Pennsville, County of Salem, at an estimated cost (including contingencies) of $2,625.00.

Recently, during the course of construction of the above project, it was necessary for the Township to make two (2) emergency repairs of 6" water main in the vicinity of proposed Ramp "H" as caused by detour road construction, at a cost of $237.00. Since a portion of the 6" water main is within proposed Ramp "H" area, it will be necessary for the Township to furnish and install twenty-five (25) pipe joint clamps in order to avoid future failures, at the actual cost of $1,125.00. A Change Order covering the above work by the Township, as an inclusion under the subject Agreement, is in progress.

Approval is recommended to reimburse the Township of Pennsville for the cost of the aforesaid work at the combined ($237.00 + $1,125.00) cost amount of $1,362.00. Construction Program Year: 1971 Item No.:6 (August 9, 1971)

Claim- of Eugene & Gracie W. Long

10 There is presented herewith the matter of a recommendation related to an administrative settlement for any and all damage including work to be performed on property of Eugene Long and Gracie W. Long, Sand Spring Road, Harding Township, Morris County, said damage having occurred as the result of the contract construction of Route 287, Section 9, or work required now which cannot be performed until a future paving contract is awarded, said date being indefinite.

88 There is presented again the matter of acquisition on Route 3, Section 3, Federal Project U-186-(18), from Passaic River to Route 20, Parcel 89F1, Bellemead Development Corporation, a corporation of the State of Delaware. Condemnation proceedings were previously authorized for this parcel on October 20, 1969. A deposit of $1,115,300. was made into the court on December 2, 1969.

Subsequently, the engineers revised the parcel and it is now designated as Parcel R89F1. The revised parcel was re-appraised and the Reviewer's registered Fair Market Value Determination is $2,030,800. Re-negotiations were conducted with the Attorney who demanded agreement form revisions unacceptable to the State.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel R89F1, in fee simple, subject to any utilities existing in the premises.

It is further recommended that the complaint on file be amended to substitute the map and description for Parcel R89F1 in place and instead of those previously filed. Authority is requested to deposit an additional $915,500. with the Superior Court which when added to the $1,115,300. previously authorized for deposit will make a total authorization of $2,030,800. There is presented again the matter of condemnation of property on Route 15 Freeway, Section 8, Shawnee Drain To Morris-Sussex County Line in the name of John J. O'Brien and Sara A. O'Brien, h/w. On December 15, 1969 condemnation proceedings were authorized for the acquisition of Parcel R5 wherein it was further authorized that a complaint previously filed for the acquisition of Parcel R100 on Route 15, Section 2, also in the name of John J. O'Brien & Sara A. O'Brien, be amended to include said Parcel R5. This was because both parcels are from the same entire tract and constitute the property owners entire holding at this location.

Since the owners refused to consent to the amendment of the complaint referred to it was necessary to move for an Order to allow the amendment. At the hearing on the motion the Court directed that the State must file a new and separate complaint for the acquisition of Parcel R5. As a result of the Order of the Court the engineers redesignated the required taking as Parcel 2R5 on Route 15 Freeway, Section 8. The parcel has been appraised and the Reviewer's registered Fair Market Value determination is $37,700 which was offered to and refused by the owners whose demand of $75,000 was considered excessive.

It is therefore recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcel 2R5 in fee simple subject to any public utilities existing in the premises. It is further recommended that condemnation proceedings previously authorized for Parcel R5 be discontinued.

Should prior to the ultimate fixing of compensation any provisions or proceedings relating to the acquisition of this property delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Court the sum of $37,700. There is again presented the matter of an Owners Housing Payment on Route 20 Freeway, Section 2, from Route U.S. 46 Interchange to Main Street, Former Owner: Fennie DiGrado, Widow, Parcel 308.

An agreement was approved by the Assistant Commissioner Highways, on April 2, 1970. Also approved was the Replacement Housing Bonus of $1,500. which was to serve as an "Owner Supplementary Rental Payment" because the owner did not intend to purchase replacement housing, but intended to rent an apartment. Subsequently, the owner changed her mind and purchased a replacement home. Therefore, by reason of the owner's entitlement to additional benefits, a Replacement Housing Additive was established in the amount of $5,000.

The owner complied with the State's regulations in that she purchased and occupied decent, safe and sanitary housing and submitted the required application for supplementary payment. The State's representative inspected the housing on June 30, 1971 and certified that the replacement housing is decent, safe and sanitary.

Authority is requested to pay the Replacement Housing Bonus in the amount of $5,000.

Authority is also requested to rescind the $1,500 Bonus portion of the previous Commission Action. (August 25, 1971)

Authority is requested to rescind the previous commission action dated October [illegible], 1970 and to declare null and void the agreement which was approved. Our Title Bureau will prepare the appropriate explanatory correspondence to the Middletons upon approval of this action. (August 25, 1971)

101 There is presented the matter of settlement in the condemnation of property on Rt. U.S. 9, Section 4, Parcel R57, owned by S. & H. Holding, Inc.; et al.,

The above entitled matter was scheduled for trial on May 10, 1971. After consultation with James V. Hyde, Jr., Director, Division of Right of Way, it was agreed that a settlement in the amount of $86,250.00 was most favorable to the State due to a commission award of $90,500.00. Accordingly, the matter was settled by a Consent Judgement in the amount of $86,250.00. Complaint was filed on July 2, 1970. Fair Market Value was $76,500.00.

It is, therefore, recommended approval be granted said consent judgement in the amount of $86,250.00, it is further recommended that said sum less the deposit of $73,700.00, be paid into Court.

Interest was expressly limited in the Consent Judgement to $20.00.

107 There is presented here the matter of a judgment rendered on appeal from the award of condemnation commissioners on lands owned by Richard O. Ely and Minnie O. Ely, on Route 33, Sec. 3, known as Parcels 19A1, 19A2, 19A3 and 19B, all of which are now owned by Twin Rivers Development Corporation. 108 There is presented the matter of the condemnation against the land on Route 47, Section 11, Parcel UE21 in the City of Vineland, Cumberland County, which is being taken for utility easement on land owned by Guarancini Realty Co., a corporation of New Jersey.

The complaint was filed on April 8, 1970 and the Declaration of Taking was filed on April 14, 1970 at which time the fair market value of $250.00 was paid into Court.

At the hearing before Commissioners the property owner refused to introduce testimony as to value and therefore the State refused to introduce any testimony as to value, the State's appraisal being made by a Departmental appraiser, and upon appeal it would necessitate an appraisal to be made by a qualified fee appraiser at great cost for the appraisal, and for attending, a pretrial and appearance in court on the trial of the appeal.

The Commissioners made their award in the sum of $1,750.00.

It is recommended that the Commissioners' award be approved because it is in the best interest of the State, and that the difference between the amount deposited, $250.00 and $1,750.00 be paid into Court without interest. (August 25, 1971)

At the trial, held on June 21 and June 22, 1971, the property owner offered testimony in the amount of $20,000.00. The State presented testimony in the amount of $2,850.00. The jury returned a verdict in the amount of $5,500.00.

Claims - Settlement

The Department of Transportation is carrying a claim against Robert J. Hansen, et al in the amount of $528.66 arising out of an accident occurring on October 22, 1968 involving a vehicle owned and operated by Robert J. Hansen, a resident of the State of Wisconsin. As the result of said accident, traffic signal equipment was damaged and had to be repaired at a cost of $528.66.

Upon tendering a bill the Claims Bureau received a reply from the insurance carrier representing Mr. Hansen. The insurance carrier indicated that they did not feel responsible for the entire damage as the traffic signal was pulled onto the tractor trailer unit by a low hanging wire. The police report substantiates this position and the operator of the tractor indicated that he did not see the low hanging wire until it was too late to stop.

The insurance carrier indicated that this was a case of questionable liability and in an effort to effect an amicable settlement, offered the sum of 50% in full settlement of our claim. The offer was discussed with counsel assigned to the Department of Transportation who indicated that the settlement figure appeared to be reasonable and recommended that the offer be accepted.

Giving due consideration to the circumstances and counsel's opinion, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman that the sum of $264.33 receive favorable consideration and be approved. (August 31, 1971)

Claims - Settlements

The Department of Transportation is carrying a claim against the Hertz Corporation in the amount of $383.89 covering the cost of making necessary repairs to department vehicle bearing Reg. TD 9155 which was damaged as the result of an accident occurring on January 7, 1970 involving a vehicle owned by the Hertz Corporation, being operated by Joanne M. O'Neil, both of New York City.

The Hertz Corporation offered the Claims Bureau the sum of $300.00 in full settlement of the department's claim. The repair invoice which indicates 30 hours of labor was reviewed at the request of this office by an independent auto damage appraiser who was under the opinion that 30 hours labor was excessive and that the offer of $300.00 would be more than a fair price for the work actually performed. The offer of settlement was then discussed with counsel assigned to the Department of Transportation who felt the offer was fair and reasonable and should be accepted.

In view of the foregoing it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General David A. Biederman that the offer of Hertz Corporation in the amount of $300.00 receive favorable consideration and be approved. (August 31, 1971)

Condemnation proceedings were previously authorized at which time the owners' demand of $10,000 was considered excessive.

Prior to a commission hearing the State's Deputy Attorney effected a settlement in the sum of $5,000 and the Right of Way Division concurred in, which resulted in the execution of an agreement as follows:

Parcel UE177B James V. Costanzo & Concetta E. Costanzo, h/w; and Griffith-Prideaux Realty Co., A Corporation of New Jersey Consideration $5,000.

The parcel has been appraised and the Reviewer's registered Fair Market Value determination is $4,000. The variance is not monetarily substantial. It is further recommended that condemnation proceedings previously authorized be discontinued. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking.

Said Parcel UE177B being required to relocate the facilities of Jersey Central Power and Light Company further authority is requested to convey said parcel to Jersey Central Power and Light Company under the terms of the existing utility order approved by the Commissioner of Transportation on January 21, 1969 which provides for said conveyance. 52 There is presented again the matter of acquisition of property on Route 295 (1953), Section 6, Federal-aid Project I-295-1-(39), From Hollywood Avenue to New Jersey Turnpike. An agreement for Parcel 27 was previously approved on December 17, 1970, by the Commissioner, in the sum of $170,500.

Prior to the date set for closing, our engineers advised that there was an existing sanitary sewer easement on the above mentioned parcel. The State did not wish to move this easement or acquire the parcel with this encumbrance as part of this parcel is being acquired for a rest area. The problem was corrected by revising the parcel to Parcel R27, deleting that portion of the parcel encumbered with the sanitary easement.

Continued negotiations have resulted in the execution of an agreement as follows:

Parcel R27 Sand & Gravel Enterprise, Inc., a New Jersey Corporation Consideration $177,000.00

This parcel has been appraised and the Reviewer's registered Fair Market Value determination is $177,000.00. Approval is recommended.

It is recommended that this agreement be approved and the Commission Action of December 17, 1970 be rescinded and that the agreements in the sum of $170,500 be considered null and void. (September 1, 1971)

In view of the fact that the City of Clifton does not own the parcel in question, authority is requested to rescind the Commission Action of May 28, 1971 and to declare the agreement it approved null and void. This will allow the contractor to enter on the newly designated parcel. The suggested settlement of $500 was offered to the owner who could not complete negotiations at this time and entry upon the property is required by the State's contractor.

Should, prior to the ultimate fixing of compensation, any provisions or proceedings relating to the acquisition of this parcel delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a Declaration of Taking and to deposit with the Court $500.

Accordingly, this matter was settled with the property owner in the amount of $65,000. including interest. Complaint was filed on March 13, 1968 and a deposit was made into Court on March 13, 1968 in the amount of $44,800 for parcels 26A & 26B. 117 There is presented here the matter of the Consent Judgment entered into by the State on the condemnation of property on Route 35, Section 6, Parcel 119, owned by Robert Weltz.

At the trial before a jury, the owners presented testimony in the amount of $22,000. The State's fair market value was in the amount of $8,800. The construction plans called for the erection of a guard rail along 85' of the subjects' frontage. Based upon last minute information obtained from our Engineering Division, it was determined that said guard rail would not be erected.

Based upon this stipulation, Consent Judgment was entered into for the amount of $10,000 inclusive. The commission award was in the amount of $14,000. Based upon other judgments in this area on similar partial takings, it appears that this judgment is in the best interest of the State and it is, therefore, recommended that the Judgment be approved. The fair market value was reregistered on December 16, 1970, in the sum of $21,400.00. The owners' expert placed a value of $6,200.00 on land, $6,000.00 on site improvements, and $21,900.00 damages to the remainder, or a total value of $34,100.00 for the entire taking. The Commissioners made an award of $26,500.00. Since the award is substantially in excess of the State's fair market value

in the sum of $5,100.00, it is recommended that an appeal be taken and a protective appeal has been filed. (August 31, 1971)

Route 33 Freeway, Section 2

87 There is presented again the condemnation of lands on Route 33 Freeway, Section 2 from Route U. S. 9 to Route 33. Condemnation proceedings were previously authorized for Parcel 4A1, Dov Majk, A/K/A Dov Mayk, Single, on May 20, 1971, as the agent refused to complete negotiations at that time.

Subsequently, an engineering revision changed the parcel delineation to R4A1. Further negotiations have resulted in the execution of agreements by this owner as follows:

Parcel R4A1	$ 9,900
Parcel R4B	$ 96,000
Total	$105,900

Parcel R4A1 is required for the construction of Route 33 Freeway, Section 2. Parcel R4B is outside of the right of way. It is being acquired so as to restore areas taken for this highway from the Department's Freehold Regional Office and Maintenance Site, thereby mitigating the damages resulting to this facility by reason of its proposed partial use for highway purposes. Details relating to the Departmental Maintenance Site are contained in the attached record memorandum dated May 25, 1971.

The fair market values for these parcels are $9,500 for Parcel R4A1, $92,700 for Parcel R4B, for a total of $102,200. As the agreements are not substantially at variance with this amount, the proposed settlement appears to be fair and reasonable and in the public interest.

The matter is submitted with a recommendation that the previous condemnation be rescinded and that approval of these agreements be granted with the understanding that Parcel R4A1 is for the Freeway and Parcel R4B will be incorporated as the restored area of the Freehold Regional Office and Maintenance Site.

Further authority is requested for an intra-Departmental transfer of Parcel R4B to the Division of Central Services, Bureau of Plant Engineering and Operation, as part of the referred Freehold Regional facility and for incorporation of Parcels 5A, L5B, L5C, L5D and 5E from the Maintenance Site into Route 33 Freeway, Section 2. 	Less allowance to the State for owner's retention and removal of one double-faced illiminated Chevron Sign and two light poles of		150.
		Net Cash Consideration	$8,650.

120 The above entitled matter was scheduled for trial on July 19, 1971. After consulting with Angelo A. Alfano, Acting Director, Division of Right of Way, and David A. Biederman, Chief Counsel to the Commissioner, it was agreed that a settlement in the amount of $9,240.00 was most favorable to the State.

Accordingly, the matter was settled in that amount. Complaint was filed on January 28, 1970. Fair market value was registered at $7,700.00.

It is therefore recommended said Judgment in the amount of $9,240.00 be paid, less the deposit of $7,700.00 and any applicable interest. It is further recommended that this Judgment be paid into court due to involved title problems.

Claims - Settlement

The Department of Transportation is carrying a claim against John J. Ryan, Sr. and John J. Ryan, Jr. in the amount of $293.15 arising out of the cost of repairing traffic signal equipment which was damaged in an accident occurring on May 10, 1969 involving a vehicle owned by John J. Ryan, Sr., being operated by John J. Ryan, Jr.

The insurance carrier for Mr. Ryan, upon receipt of the Department's bill, denied liability on the grounds that their assured was not legally responsible for our damage having been forced off the road by another vehicle which cut him off. The Claims Bureau attempted to work out a reasonable settlement, but the insurance company was adamant that a phantom car was the proximate cause of the accident. Suit was therefore instituted by the Claims Bureau in the Monmouth County District Court. Subsequent to our filing a suit the insurance company approached us to discuss settlement. We have now been successful in obtaining an offer of $200.00 which offer was discussed with counsel assigned to the Department of Transportation who feels it is fair and reasonable and should be accepted.

In view of the foregoing and considering the cost to the Department in the event we elected to go to trial for the full amount of this claim, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the approval of Deputy Attorney General David A. Biederman that the offer of $200.00 receive favorable consideration and be approved. **(September 16, 1971)**
